#### Monsanto

#### **PHARMACEUTICALS**

## The unseen guardians

In producing chemicals for the Pharmaceutical industry there are three absolute essentials—quality, uniformity, and purity. At Ruabon, a staff of highly-skilled control chemists watches every stage of manufacture to ensure those fundamentals. The result is that Monsanto pharmaceuticals not only conform to B.P. standards but often surpass those standards by a considerable margin. Another point worthy of note, is that Monsanto themselves, produce most of the raw materials from which those pharmaceuticals are made, thus giving the assurance of control from start to finish right along the line

Write to Sales Department for Bulletin "Chemicals for the Pharmaceutical Industry".

# The EVANS service

In step with the development of pharmaceutical science Evans are creating a new headquarters on a thirty-acre site at Speke on the outskirts of Liverpool. Already some seven acres are covered by buildings and progress is being made as rapidly as conditions will permit. Backed by 140 years of experience, The Evans Service is meeting all demands for a comprehensive range of medical supplies.

Large scale manufacturers combined with the skill and experience of generations enables supplies of drugs, galenicals, fine chemicals and pharmaceutical preparations to be offered at competitive prices to pharmacists, hospitals, wholesale clients and to manufacturers. Literature and samples will be sent on request.

RUDYARD KIPLING

Just as in earlier years the power of the trade winds was vital to the maintenance of commerce so the power of good printing is vital to the modern business house today. What is more, the production of good print, like the handling of sail, calls for a lifetime of experience.

The printed word is your ambassador-at-large, so it is essential that it should be of the highest standard. Consult us when next you are planning brochures, showcards, cartons, labels, etc. We have had a lifetime's experience of good printing and shall be pleased to place our wide knowledge at your service.

# A Delicious, Concentrated, Vitamin Food of the Highest Quality

### A Product of the Ovaltine Research Laboratories

TO the physician requiring a product which incorporates important vitamins in a form acceptable to every patient, "Vimaltol" presents special advantages.

"Vimaltol" is made from specially prepared malt extract of high protein content, yeast—one of the richest sources of vitamin B—and Halibut Liver Oil, an important source of vitamins A and D. It is also fortified with additional vitamins and mineral salts, and is deliciously flavoured with orange juice.

"Vimaltol" is standardised to contain in each fluid ounce: 648 international units of vitamin A and 1390 of vitamin D; also 0.3 milligrammes of vitamin B, 4 of Niacin (P.P. vitamin) and 4.8 of Iron, in a readily assimilated form.

"Vimaltol" is thus an important aid in the treatment of the many abnormal conditions resulting from the deficiency of one or more of the essential vitamins in the average everyday dietary.

The routine use of "Vimaltol" helps normal development of the growing organism and the maintenance of correct metabolism, while raising the general resistance against infection.

"Vimaltol" has thus a very wide application in general practice for children and adults of all ages. It can be recommended with advantage at all seasons.

#### NEWS OF THE WEEK

More Import Licensing Relaxations.—
1 open general import licence has been anted for rapeseed oil and arsenious ide (including white arsenic), with the ception of goods from hard-currency untries and certain other territories (see & D., October 15, p. 531).

Supplies Officers Join Association.—At e annual conference of the Purchasing fficers Association, recently held at Scarrough, it was reported that during the ar many hospital supplies officers rently appointed under the National ealth Scheme had been elected to memership.

De-licensing Proposals.—The Ministry Food announced on November 11 that, soon as the necessary Orders and adminrative arrangements can be made, ences will not be required for the manucture or processing of glucose, imitation ney and imported honey, nor will any ence be needed to trade by wholesale cereal breakfast foods, imported honey d glucose. The dates of removal of the strictions are to be announced.

Hospitals Directory.—The Ministry of Health has issued a 164-page hospitals directory for England and Wales giving details of regional hospital board areas, hospital management committees, boards of governors of teaching hospitals, disclaimed hospitals, and institutions with which regional hospital boards have made contractual arrangements.

Civil Defence Again. — The Home Secretary announced on November 14 the opening of Civil Defence recruiting. Volunteers are required for the Civil Defence Corps, Auxiliary Fire Service, National Hospital Service Reserve and Special Constabulary. Training—in spare time—will amount to four or five hours a month. Leaflets describing each of the services can be obtained from the offices of local authorities.

T.S.A. Penicillin Licences.—Licences under the Therapeutic Substances Act, 1925, for dispensing penicillin injections have been granted to the following:—HUDDERSFIELD: Thornton & Ross, Ltd., Linthwaite. Saltburn-on-Sea: Langham,

Ltd., 9 Station Street. Cambridge: A. S. Thorn, M.P.S., 255 Chesterton Road. Southend-on-Sea: J. McDonnell, M.P.S., 803 Southchurch Road. Hinckley, Leics: Halsteads (Chemists), Ltd., Castle Street.

Standard for Vitamin D in Oil.—The British Standards Institution has issued a standard (B.S. 1581:1949) for vitamin D in oil for poultry-feeding purposes. The increasing use of vitamin D<sub>3</sub> solutions to enrich mashes has led the Institution to adopt a standard before manufacturers start to market preparations containing varying quantities of vitamin D<sub>3</sub> in different oils. The standard provides minimum limits for vitamin potency, maximum acidity and methods of test. Copies can be obtained from the Institution, 24 Victoria Street, London, S.W.1 (price 2s., post free).

Aureomycin and Chloromycetin.— Owing to the scarcity and costly nature of Aureomycin and Chloromycetin, their use can be justified, states the Ministry of Health, only for conditions in which they are considered likely to be beneficial. So that available supplies are used to the best advantage, the Ministry has arranged to purchase all available supplies of both drugs and to distribute them through Regional Hospital Board Centres previously used for distributing streptomycin. Hospitals outside the National Health Service will be able to obtain supplies of Aureomycin and Chloromycetin from those centres on payment. The arrangements will operate from November 21. On the advice of the Medical Research Council it has been decided for the present to confine the

New Factory at Aberdeen.—A view of girls at work at the new factory of Moore Medicinal Products, Ltd., at Berryden Road, Aberdeen. The opening ceremony was performed by Lord Provost Duncan Fraser, Councillor T. Scott Sutherland (chairman and managing director) presiding.

use of these drugs to the treatment following conditions:—Aureomycin: pected cases of ornithosis; proved of undulant fever (brucellosis) and phogranuloma inguinale, and sever of atypical pneumonia due to a Chloromycetin: Suspected cases of thosis; proved cases of undulant fever cellosis), lymphogranuloma inguityphoid fever, paratyphoid fever (see and salmonella septicæmia. These gories may be added to from time to in the light of current expert advice, thosis includes any type of virus pneumonia transmitted by birds to man.]

Pharmaceutical Committees Fede ed. -The inaugural meeting of a wly ormed Federation of Pharmac cal formed Committees for South Wales and onmouthshire was held at Port Talk on November 10. Representatives from ardiff, Carmarthenshire, Glamorgan, erthyr Tydfil, Monmouthshire with port, and Swansea were present. Tl ollowing officers were elected: -Che lan (to hold office for three years), M W. Oswald Davies, Pontypridd; Vice-cha an, Mr. J. S. Gilbert, Swansea; Secretar Ar. W. Parry Williams, Penarth. It w resolved to ask Cardigan, Brecon and adnor to join the Federation, and to lise North Wales Pharmaceutical Comi ees to form a Federation to cover the co ies north of Cardigan and Radnor, botl ederations to confer when necessary. he reason for separate Federations we he serious lack of transport facilities be en North and South Wales). An infor live discussion on the "Test Dispensing Schoe. showed that the standard of accuracy las being well maintained, and that informed local adverse Press publicit 'as not likely to recur. Regarding rollispensing in "one-or-two-chemist \$ 5" the need for a one-hour dispensing rc 1/2s reiterated, and the many anomalies : ng from the Ministry's instruction to di lise for thirty minutes after closing at ( m. were emphatically stated. The 1s. ege per prescription was mentioned a in the absence of details of its method ollection was deferred for discussion er.

Statistics in Business.—In an inal address to the Royal Statistical Soci London on October 31, the presider Geoffrey Heyworth) said the busines wants figures as a help in deciding the ought to do next in the running affairs. Business statistics need to be

ESENTATION TO STAFF.—During a dinner-dance held in London on October 28, presentations were made tembers of the staff of Vitamins, Ltd., who had completed twenty-one years and over in the service he company. Mr. H. C. H. Graves (a director) made the presentations, and the recipients were T. F. Joyce, 1921; Major C. Cullimore, 1926; Messrs. D. I. Thomas, 1927; J. Veitch, 1928; and alloway, 1928; Misses M. Newell, 1928; and D. Archer, 1928; Messrs. W. Shepherd, 1928; F. Mason, and R. Bolton, 1928.

ble; they should be made available in business only to those who can take ul action on the basis of them; and are useful only as a check on, not a titute for, the business man's judgment. wers full of figures and walls full of rts in a manager's office are a certain of something wrong, of an attempt to by reading what can only be done effecly by going and looking. A few simple res in each section of the works, givthe information a particular supervisor ires to look after his job properly are, the other hand, a considerable indicathat the unit is being conducted proy. All statistics can do is to reduce the nce of error inherent in managerial igance or managerial prejudice.

#### LOCAL NEWS

Iealth Service in Wales.—At a meetof the Associations of Welsh Execu-Councils at Swansea on October 28 was stated that the National Health vice in Wales in the first year was estied to have cost £7 millions. Chemists ived £1,500,000.

Sirmingham Test Prescriptions.—Birgham Executive Council have reprided a chemist for carelessness in dissing a prescription. The chemist stated the thought the deficiency was the reof using a stock mixture and not to error in dispensing. No action was an in three other cases considered by Council.

Public Analysts' Meeting.—At a meetof the Society of Public Analysts and er Analytical Chemists held in Loncon, recently, papers were read on "Recent Advances in Water Examinations." Mr. G. U. Houghton, speaking on the determination of residual chlorine, said p-amino-dimethyl-aniline had been used with success in colorimetric determination and promising results were being obtained by amperometric methods. The methylorange method was worthy of study.

Scottish Pharmacists Visit Nottingham.—A party of pharmacists from hospitals in the east of Scotland visited the laboratories and works of Boots Pure Drug Co., Ltd., Nottingham, on October 25 and 26. The party was received at the company's Beeston factory by Mr. H. S. Hibbins (a director). The visitors were shown the company's fine chemical department and the pharmacological and bacteriological divisions of the research department, and, on the evening of October 26, were entertained to dinner, Dr. W. A. R. Thomson (head of the medical department) presiding at the table.

Lectures on Hernia.—A course of eight lectures on the anatomy, pathology and treatment of hernia will be given by Mr. Mitchell-Heggs, T.D., F.R.C.S., at the Chelsea Polytechnic, Manresa Road, London, S.W.3, on Wednesday evenings at 7.30 p.m., commencing January 18. The lectures will deal with the skeleton, the muscular system, joints, the cardiovascular, genito-urinary, alimentary, nervous and respiratory systems, inguinal, femoral, umbilical and ventral hernias. The fee for the course, which has been arranged in coperation with the Institute of British Surgical Technicians, is 10s.

#### IRISH NEWS

Waterford Chemist Golfers.—Local chemists under the captaincy of Mr. V. P. O'Hara were the winners in matches at Waterford golf links for the Professions 2nd Trades shield, recently. Mr. A. H. Cullinane made the best net score, and Mr. J. Gilligan tied for the Senior cup.

Factory Social Club.—A sports and social club for employees of Aspro (Ireland), Ltd., was inaugurated recently at Inchicore, when a play was produced in the factory's theatre by members of the Aspro dramatic group from Slough. Mr. H. J. Nicholls (a son of one of the founders of the firm) was present at one of the performances.

Shilling Levy in N. Ireland.—The proposal to charge up to 1s, per prescription under the National Health Service Act will be adopted in Northern Ireland, announced Major J. Maynard Sinclair (Minister of Finance) in Parliament on November 8. The charge was designed, he said, to prevent abuse through unnecessary visits to the doctor. There was a widespread feeling that some such step was required even had there been no question of overall economy. Some reform was desirable and proposals effecting a saving of £250,000 were under consideration and would be submitted to Parliament. The Minister's statement was considered by the local Pharmaceutical Committee, which expressed strong opposition to the proposal.

Chemists' and Students' C'ub.—The annual meeting of the foundation committee of the Pharmaceutical Chemists and Students' Club was held at the College of Pharmacy, Dublin, on October 31, Mr. E. Browne in the chair. The attendance included the president of the Pharmaceutical Society of Ireland (Mr. T. C. Scott), the treasurer (Mr. J. Gleeson), Messrs. P. C. Cahill, P. A. Brady and J. G. Coleman (registrar). Mr. M. Walshe, (secretary) reported that, on the advice of the trustees, £2,000 had been invested in 3 per cent. Exchequer bonds. The balance sheet presented by the treasurer (Mr. W. J. Gardner), showed that income for the year was £565. After grants of £40 to the College of Pharmacy Gaelic Athletic Association football team and £20 to the Camogie club, there remained a profit of £458, and the total to be carried forward was £2,875. The accounts were audited by Miss Cora Gaffney and Mr. T. O'Dea.

#### **OVERSEAS NEWS**

Brussels Treaty Health Plans.—7 Brussels Treaty Committee of Experts Public Health, at its fourth session h in Luxembourg, recently, studied the p gramme of exchange visits of medical a allied workers organised between the treaty countries.

Egypt Requires British Pharmaceutics—Among the goods which Egypt hopes buy from Britain in greater quantities pharmaceutical products, if the Ang Egyptian sterling balance negotiatic which are likely to begin in Cairo in cember, have a satisfactory conclusion.

Cheaper Medicines in Sweden.—I. Swedish Government has decided to duce the profit margin on pharmaceut specialities, so that retail prices are duced by an average of 10 per composition of the profit of the profit

Argentine Import Regulations.—N Argentine import regulations, announ on November 5, list "essential" gc for which the granting of exchange will considered for import from the Un Kingdom and various other countries, cluding a wide range of chemicals medicinal products, among them campl

Pharmaceutical Society of Barbado The first annual report of the Pharma tical Society of Barbados was issued cently by its executive council. Du the year (ending June 1949) a commi made recommendations to the Med Assessors for amendments to the D Acts, 1894 which were put before general body in February. In March committee met the Assessors who fel was not necessary to make any ame ments at that stage and suggested a ference with other Pharmaceutical Socie in the West Indies so that the standard training might be made uniform a higher level. The Society also app through the Colonial Secretary, for the pointment of a druggist on the Cor Board. The officers and members of Executive Council are: President, . B. A. Weatherhead; Vice-preside Messrs. F. S. Olton and A. W. Sm Treasurer, Mr. H. K. Archer; Secret Mr. H. A. Happ; Assistant Secretary, O. O. Alleyne. During the year the lectures were given on "Anæstheti" History of Anæsthetics" and "Tr ment of Syphillis."

#### TOPICAL REFLECTIONS

Fund for Propaganda

The National Pharmaceutical Union ranch representatives' discussion on proaganda for C.F. products (p. 667) dis-osed a sound appreciation of the issues volved. Those present who remembered e abandonment of a collective scheme of ublicity for members of the Union in 134 were, no doubt, determined to avoid similar experience in 1949. A limited heme for a clearly defined range of proucts promises to be more practicable. So ore is the association between the Union hd the Chemists Federation that the solution to arrange for an increase in the intribution by the parent body to its fspring is reasonable. I notice that in te matter of voluntary subscriptions the target" has already been reached or assed by some N.P.U. branches. This is s it should be; there is no reason why the ends of the Union should be regarded sufficient for every conceivable purpose, nd subscriptions willingly given are evience of enthusiasm for the object in view. the two methods of raising a propaanda fund may well continue in operaon, and even in friendly rivalry. The sperience of fifteen years ago has taught te officials of the Union a good deal out means of obtaining such objectives the one now proposed. I hope and beeve that they will have no apathy to vercome. Doubts about the publicity heme of 1934 would be irrelevant if ney were to be applied to the present proosals.

#### ope Deferred

Panel chemists seem to be getting no carer to a clear understanding with the linistry of Health regarding payment for ational Health Service dispensing. The .P.U. branch representatives' discussions ported on pp. 668-69 and correspon-ence on p. 676 are evidence of a deep nd general resentment at the cavalier eatment of a body of qualified people hose chief weakness seems to be that they ere too ready to expect efficient pricing. s Mr. J. Wilkinson puts it: "Contractors, nbued with goodwill and assured of a fair eal have, in the main, increased their spenses and commitments to meet the resent level and tone of dispensing." With hat result? We read of a monthly "loan" the Government (estimated at £120 per nousand N.H.S. scripts), of a bank overraft, and of unexpected cuts in fees. It

is not surprising that strong feelings were expressed at the meeting mentioned, and that more than twenty resolutions were carried. The chances for consideration of those resolutions in Whitehall are uncertain; but the resolutions were the outcome of practical experience of a system that, so far, is about as unsatisfactory as the National Health Insurance dispensing contract that it replaces. A detailed comparison of the systems might show, in fact, that it is the more unsatisfactory of the two. In the meantime the continuing silence of the Ministry of Health over the means of collecting the shilling levy that is proposed to be raised on dispensed medicine; a factor that is likely to affect the form of payment to chemists—makes for greater uncertainty in this difficult situation.

#### A Contrast in Stones

The announcement that caustic potash is to be decontrolled (p. 658) brings to mind its old synonym lapis infernalis. This, sometimes translated "hell-stone," obviously dates from a pre-scientific age. The term became obsolete none too soon, for it was also applied to fused silver nitrate, and for well over a century the risk of confusion and of accident must have been serious. In this brief note the subject can be but lightly touched. It may be mentioned that the expression "lapis infer-nalis" was first applied to caustic potash: the fact is sometimes forgotten. In the Edinburgh Pharmacopæia of 1736, and possibly earlier, "causticum lunare, seu lapis infernalis" was recognised; yet as late as 1837 Rennie used lapis infernalis as a synonym for caustic potash only. A few years later Pereira stated: "The term infernal stone (lapis infernalis) is some-times applied to this salt [silver nitrate] as well as to the hydrate of potash." By way of counterpoise to this sinister term I may add lapis divinus, a name still to be found in "Pharmaceutical Formulas," Vol. I, and, for anything I know to the contrary, occasionally met with in prescriptions. I remember preparing some-long ago—for dispensing, and wondering how much of the camphor remained in the fured mixture of salts. Whether the heat volatilised all of it, or whether some or most entered into chemical combination with the other ingredients, I have never known. The synonyms are not the only ones of their kind.

#### NEW COMPANIES

SPRAYFUME, LTD. (P.C.). — Capital £2,000. To carry on the business of manufacturers of spray containers and bottles, powders, scents, perfumes, etc. First directors are to be appointed. Gwilym Williams, 37 Tavistock Square, London, W.C.I., secretary.

CARNEGIE BROS. (1949), LTD. (P.C.).—Capital £2,500. To carry on the business of manufacturing wholesale and retail chemists, druggists, etc. David M. B. Carnegie and Marjorie Carnegie, directors. R.O.: 44 Tewin Road, Welwyn Garden City, Herts.

A. E. LLEWELLYN (CHEMISTS, OPTICIANS), LTD. (P.C.).—Capital £6,000. To carry on the business of chemists, druggists, opticians, etc. Grace C. Llewellyn, Julius Black, M.P.S., and Frank Jenkins, directors. R.O.: 98 High Street, Alfreton.

WARRICK BROTHERS, LTD. (P.C.).—Capital £20,000. To carry on the business of manufacturing chemists, etc. Robert J. Warr Grieve, William E. Warr Grieve and Edgar G. Rowe, directors. Solicitors: Blyth, Dutton, Wright and Bennett, 112 Gresham House, London, E.C.2.

Central Scotland Pharmacies, Ltd. (P.C.).—Registered in Edinburgh. Capital £20,000. To carry on the business of chemists, druggists, etc. Angus F. McIntosh, M.P.S., David B. Miller, Sir Stanley N. Miller and Ronald Scott-Dempster, directors. R.O.: 55 South Methven Street, Perth.

#### Company News

PETROCHEMICALS, LTD. — Mr. Lewis Gilmour Whyte, F.F.A., has been appointed a director.

RECKITT & SONS, LTD.—A second interim dividend on the ordinary shares is announced of 10 per cent., the same as in 1948.

South African Druggists, Ltd.—An interim ordinary dividend is announced of  $7\frac{1}{2}$  per cent., compared with 10 per cent. in 1948.

AMBER CHEMICALS, LTD.—In view of the increased profits tax and the need to conserve finances, the board is reducing the interim dividend on the ordinary shares for the current year to 5 per cent. (from 15 per cent. in 1948).

EVANS MEDICAL SUPPLIES, LTD.-Th capital of the company is to be reorganise and increased from £450,000 to £1 mi lion, divided into £250,000 worth of £ preference stock, £200,000 of 5s, ordin ary stock, £150,000 in £1 unclassifie shares and £400,000 in 5s. unclassifie shares. The existing preference stock to be converted from 6s. 8d. units to £ units, and the existing ordinary stock from 6s. 8d. units to 5s. units. The participating rights of preference stockholders are to l abrogated by the conversion of their stor to a straight 6 per cent, cumulative prefe ence, and compensated for by the issue ordinary stock, to be paid for by capita ising £30,225 of revenue reserve. rights of preference shareholders are esta lished to all arrears of preference dividento date of repayment, and separate cla rights are to be given in the event repayment of capital. An interim ordina dividend of 3 per cent. is to be declare on December 31, in the absence of unfor seen circumstances.

#### **BUSINESS CHANGES**

Percenta, Ltd., have removed to Pecenta House, 314 Grays Inn Road, Lodon, W.C.1 (Telephone Terminus 625!

KEIGHLEY INDUSTRIAL CO-OPERATIV SOCIETY, LTD., have opened a branch pha macy at 2 Emily Street, Keighley, Yorks

Mr. V. Kandiah, M.P.S., is for the tir being acting superintendent of the Cir Medical Stores, Colombo, Ceylon.

G. B. Kent & Sons, Ltd., have a pointed Mr. H. M. Powell their repr sentative for the counties of Gloucest Monmouth, Hereford, Glamorgan, Breco Radnor, Cardigan, Carmarthen and Per broke.

#### LEGAL REPORTS

Unauthorised Possession.—At Liverpool ipendiary magistrates' court, on Novemer 1, Chan Hon Wah, a Chinese, and Auzernandez, a Portuguese-Indian, were each ned £50 with £4 4s. costs, and Moedine irally, a native of Mauritius, was fined 10, on charges of being in unauthorised ossession of a dangerous drug, namely pium.

Cash from Employers.—At Thames olice court on November 10 Gwilym lirwaun Elias, M.P.S., Victoria Rise. lapham Common, London, S.W.4, was parged on remand with stealing, between ctober 23 and 31, from 217 East India ock Road, Poplar, £57 10s, in cash benging to his employers, Timothy Whites Taylors, Ltd. He had earlier pleaded uilty and was now sentenced to four onths' imprisonment. Evidence had been iven that he took money from the till. He isappeared and, when arrested, said he ad spent the money on drink. In August, hen working for the same firm, he comitted a similar offence and the money ad been repaid by his relatives, his emloyers taking him back.

Basis of a Stock Valuation.—A case which the point at issue was whether ock for taxation purposes should be alued at cost or at market price came efore the King's bench division, London, n November 3 when the Crown appealed gainst a decision by the City of London Peneral Commissioners in favour of Cock, ussell & Co., Ltd., wine merchants, Lonon. The Crown contended that, in takig stock at the year end, the company as not entitled to take the market prices f some goods and the cost prices of others, hichever was to its advantage, but must tke the cost price in all cases. Giving idgment, Mr. Justice Croom-Johnson said le General Commissioners had come to ie conclusion that the company's method f valuation was in accordance with the ractice of the trade. He had listened to le arguments to ascertain whether there as anything in the relevant Acts to disentle the Commissioners to find as they did, ut there was nothing in the income-tax atutes to indicate how the valuation was be made, and no authority had been alled to his attention that indicated to im that there was any legal principle aplicable to the circumstances. The Crown ppeal therefore failed, and must be disnissed with costs.

#### BIRTHS

Peterkin. — At Dunbar Hospital, Thurso, on November 3, Helen (née Wallace), the wife of J. Stewart Peterkin, M.P.S., 4 High Street, Thurso, of a son.

TAYLOR.—At Simpson Memorial Maternity Pavilion, Edinburgh, on November 6, Ena (née Doherty), the wife of Thomas E. Taylor, M.P.S., 97 Pilton Avenue, Edinburgh, of a son.

#### **DEATHS**

CLARKE.—On October 24, Mr. William Ernest Clarke, 7 Chesfield Road, Kingston-on-Thames, aged eighty-three. Mr. Clarke was formerly in business at Surbiton and Kingston, retiring in 1945 when the business at Ewell Road, Surbiton, was taken over by his son, Councillor A. F. Clarke, M.P.S.

COOPER.—On November 2. Mr. Geoffrey Cooper, M.P.S., 27 Bridge Street, Runcorn, Ches, aged seventy.

JOHNSON.—At the home of his daughter, Holly Bank, Breck Road, Poulton-le-Fylde, Lancs, on October 31, Mr. Heibert Mellor Johnson, Ph.C., governing director of H. M. Johnson & Co., Ltd., Blackpool, aged eighty-one. Son of a Malvern pharmacist, Mr. Johnson established himself in business at Coronation Street, Blackpool, in 1894, after experience with Nathaniel Smith & Co., Cheltenham, Giles, Schact & Co., Bristol, and elsewhere. For two years he was secretary of the Blackpool Branch of the Pharmaceutical Society and also served a term as its chairman.

Kelly.—At Northwood and Pinner Cottage Hospital, on November 15, Mr. Wil-

liain Burns Kelly, aged eighty years. Mr. Kelly recently completed sixty-three years with W. J. Bush & Co., Ltd., London, E.8.

RUNCIMAN. — At his home in Northumberland, on November 14, the Rt. Hon. Sir Walter Runciman, First Viscount Runciman. He was President of the Board of Trade, 1914-16.

The late Mr. W. B. Kelly

#### THE WEEK IN PARLIAMENT

By a Member of the Press Gallery, House of Commons

MR. E. A. LEGGE-BOURKE asked the Minister of Food on November 7 how much edible mutton tallow was at present stored in the United Kingdom, how much was going rancid, and what was the cause of this deterioration. MR. JOHN STRACHEY replied that tallow was imported both for making dripping and for making soap. Any tallow not fit to eat would be used for the latter purpose.

On November 9 Mr. Legge-Bourke asked the Minister of Food what was the purpose in raising the price for good colour mixed Australian tallow in October 1948, when American and European prices were falling to levels below the price previously

offered by his Department.

Dr. Edith Summerskill (Parliamentary Secretary): My Department does not buy tallow from either North America or from Europe. Prices from remaining non-dollar sources were rising in October 1948, and we had to raise our buying price in Australia and elsewhere in order to secure supplies. Prices from these sources have dropped, and we can buy more cheaply.

#### Clauses in N.H.S. Amending Bill

Among the amendments to be moved in Committee on the National Health Service (Amendment) Bill now before the House of Lords is the clause empowering charges to be made in respect of pharmaceutical services. It is in the following terms:—

services. It is in the following terms:—
"Section thirty-eight of the Act of 1946 and section forty of the Act of 1947 (which provide for the making of arrangements for pharmaceutical services) shall be amended by the addition at the end of each of those sections of the following

subsection: -

(3) Regulations may provide for the making and recovery, in such manner as may be prescribed, of such charges, in respect of such pharmaceutical service, as may be prescribed, and the regulations may provide for the remission or re-payment of the charges in the case of such persons as may be prescribed.

Another clause empowers the Minister to make and recover "such charges, in respect of such services provided under the Act of 1946, as may be prescribed, being services provided in respect of such persons not ordinarily resident in Great Britain."

#### Assessing Export Prospects

MR. H. L. AUSTIN asked the Prime Minister on November 7 whether he would consider setting up, under Governmen authority, an inquiry to assess poten export prospects in major industries, id tifying units in industry unwilling to operate in that direction, and survey and reporting on large-scale indust establishments, both privately and publ owned, not being fully utilised in national interest and on other correlaissues bearing on the export trade.

MR. C. R. ATTLEE: No. Governm Departments concerned with particular dustries are in constant touch with the about their export prospects and the abof individual firms to take advantage export openings. Departments are giving industries every possible help.

#### Prescriptions for the Disabled

MR. W. TEELING asked the Ministe Pensions on November 8 if he would accliability for the new cost for prescripti as was done before the National He Act was passed, for chronically disabled Servicemen suffering from duodenal similar troubles due to war service. H. Marquand replied that the pens instruments ensured free treatment, inc ing medicines and dressings, for war 1 sioners for their pensioned disabilities. would continue to discharge that obt tion, and detailed arrangements would announced when a change had been m in the existing provisions.

#### Cortisone

COLONEL J. R. H. HUTCHISON asked Minister of Health on November 10 v steps he was taking to encourage the duction of Cortisone. Mr. ANEURIN BE replied that the Medical Research Cou in touch with the Nuffield Foundation, promoting intensive research into Corti and other substances that might take place and be available in adeq Various pharmaceutical f amounts, with whom his officers were in close tact were also actively engaged in the f He was prepared to render all the as ance in his power. Colonel Hutch could take it for granted that all scientific information that could be n available was made available in that f but what was being sought was a mate out of which the substance could cheaply and plentifully made.

#### **PERSONALITIES**

DR. A. L. VARMA, managing director of e Dalvar Chemical Co., Ltd., Dalvar

Buildings, Dan.
Dinapore Cantt, Bihar, India, is visiting the United Kingdom in the summer of 1950 with the intention of contacting U.K. pharmaceutical and chemical manufacturers. He invites c o r r e spondence from interested firms.

THE Nobel prize for physiology and dicine has been awarded jointly to Dr. R. Hess (director of the Institute of sysiology, Zurich University), and Prosor E. Moniz (Lisbon University). The ize for chemistry goes to Professor ancis Giauque (University of California), d the physics prize to Dr. Hideki skawa (Columbia University, New York).

MR. A. McGuckin, M.P.S., is the maging director of Mawson & Proctor,

Ltd., whose business was the subject of the recent instalment of "The Profession in Practice" (C. & D., November 12, p. 661). He was apprenticed with the company and has served with it for a total of twenty-two years, holding his present appointment since 1940. 1947 Mr. Ιn McGuckin served

vice-president of the Newcastle and orthumberland Branch of the Pharmaceual Society and in 1948 was elected its esident. Mr. McGuckin's other interests clude mountaineering and photography. is a past-president of the Newcastle-onne Photographic Society.

ROYAL medals are to be awarded, on the commendation of the council of the byal Society, to Sir George Thomson, R.S., for contributions to atomic physics,

and to Professor R. A. Peters, M.C., F.R.S., for biochemical researches, in particular on the biochemical role of vitamin B<sub>1</sub> in tissue metabolism. Royal Society medals have been awarded as follows:—Copley medal, Professor G. C. de Hevesy, For.Mem.R.S., for work on the chemistry of radioactive elements; Davy medal, Professor A. R. Todd, F.R.S., for structural and synthetic studies in organic and biochemistry, with special reference to vitamins B<sub>1</sub> and E and the naturally occurring nucleosides.

Mr. W. Wigglesworth, M.P.S., who has been in business at I Church Street,

Slough, Bucks. since 1907, chairman o f Meggeson & Co., Ltd., for the past nine years, recently celebrated the fiftieth anniversary of his qualification as a pharmacist, Born at Ingrow, near Keighley, Yorks, in 1877, he was apprenticed with Mr. Henry Dunn, Ph.C., Shipley, and during his

final year there was joined by Mr. Arthur Mortimer as apprentice. On the completion of his apprenticeship, Mr. Wigglesworth studied at Watson Wills' College of Pharmacy in Kennington Road, London, passing the qualifying examination in After serving as assistant to Mr. Arad Feather, Twickenham, he purchased his present business at Slough in 1907. Two of his assistants have been with him for twenty years. He was for twentythree years prior to 1930 in practice also as a dentist. Many of the older generation in Slough will remember being taken as children, he says, to have a tooth extracted in the surgery behind his pharmacy. For many years Mr. Wigglesworth served as a member of the Bucks County Pharmaceutical Committee. For recreation he has played cricket for Slough, and is a past-captain of the Datchet Golf Club where, a few weeks ago, he was runner-up in a competition with a net score of seventy. Mr. Wigglesworth is prominent in Masonic circles and is a Past Master of the Inglefield Lodge. He is deputy-chairman of the Adelphi Theatre, Slough.

#### BRANCH ACTIVITIES

Birkenhead Pharmacists' Dance.—The Birkenhead and Wirral Pharmacists' Association held the first of a series of four charity dances at Port Sunlight on November 10. The organising committee comprised:—Messrs F. J. Nichols (president), A. Dewar and R. Pilkington (vice-presidents), J. Waterworth (social secretary), R. J. Price (assistant social secretary), and R. G. Collins (secretary).

Guildford Lecture and Film Show.—Guildford Pharmacists' Association and Branch held a meeting on November 10 when Mr. A. Chamings, B.Pharm., Ph.C., lectured on "Antihistaminics and Allergy." The lecture was followed by a discussion and a film on "Coramine" loaned by Ciba Laboratories, Ltd. The attendance

was a record for the Branch.

Harrogate Chemists Visit Hospital.—Members of the Harrogate Branch of the Pharmaceutical Society visited the Harrogate General Hospital on November 10. After a short business meeting they were conducted round the dispensary, pathological laboratory, x-ray and physiotherapy departments. The heads of the departments had arranged equipment and specimens and gave brief summaries of their work to the visitors.

Hendon and Edgware Meeting .- Mr. Thomas Heseltine in a recent address on "Pharmacy Under the National Health Service" to the Hendon and Edgware Branches of the Pharmaceutical Society and National Pharmaceutical Union, said it had been found that direct contact with the Ministry of Health over controversial matters was more satisfactory than recourse to the Whitley Council. Pharmacists on mixed committees were generally well re-ceived and given a fair hearing. Prescriptions for appliances and from dentists should be carefully checked against the approved lists. The extra fee for "urgent" medicines was, he reminded them, is, per item. Mr. Heseltine pointed out that prior to changes being made affecting the pharmacist's contract, there was consultation between the Ministry and representatives of pharmacy, though it did not follow that agreement was always reached. Negotiations on bulk prescribing had resulted in agreement on the definition of an institution, and had secured that group prescriptions should be for Formulary items only. The Pharmaceutical Society was inquiring into the legal position in the c of Fourth Schedule and Dangerous D items prescribed in such a manner. Ministry had inquired the intentions pharmacy towards advertising. The Soc had written deploring outside advertis and a reply from the Ministry was awai The Ministry was considering a schem permit doctors to carry greater emerge stocks, and chemists supplying these we get 30 per cent. on cost but no fee. answer to a question, Mr. Heseltine the only way to ensure that expenses "under 5s." prescriptions were paid the pricing bureau was to render a arate account for the expenses and sen with the prescriptions.

Wolverhampton Dinner and Danc The annual dinner and dance of the V verhampton Branch of the Pharmaceu Society was held at Wolverhampton October 27 when the guests were rece

Mr. H. Clement Shaw (president, Pharmace Society) with Mrs. Shaw, Mrs. Rimmer and D. A. Rimmer (chairman, Wolverhampton Br

by Mr. D. A. Rimmer (chairman), Mrs. Rimmer. The chief guest was Mi Clement Shaw (president of the Soci who responded to the toast "The I maceutical Society" proposed by Dr Booth (chairman of the local British M cal Association Division). Mr. H. Hov Jones proposed "Our Guests," to w the response was given by Mr. N. W. land (local secretary, British Dental, Representatives from the Wa Branch of the Society were among guests, and Mr. A. Frost acted as to master. Each lady present received a Dancing followed, during which t were novelty and spot prize dances. competition for the Benevolent Fund the Pharmaceutical Society realised a of over £10.

#### COMING EVENTS

#### Monday, November 21

ICHLEY DIVISION, NORTH LONDON PHARMACEU-ICAL ASSOCIATION, The Bull and Butcher, Tot-eridge Corner, Whetstone, at 8 p.m. Film how.

MBLEY CHEMISTS' ASSOCIATION, Wembley Town Iall, at 8 p.m. Address by Mr. Hugh N. Lin-tead, O.B.E., Ph.C., M.P. (secretary, Pharmaeutical Society).

#### Tuesday, November 22

ERDARE AND MERTHYR BRANCH, PHARMACEUTICAL COLETY, Ferrari's Café, Canon Street, Aberdare, t 7.30 p.m. Mr. R. Vernon Lloyd, B.Pharm., Ph.C. (Principal, Welsh College of Pharmacy) on Pharmaceutical Education in Wales."

SOCIETY, MINGHAM BRANCH, PHARMACEUTICAL Frand Hotel, Birmingham, at 8 p.m. Mr. H. A. hillips, B.Sc., Ph.C. (Burroughs Wellcome & O.), on "Malt Extract and Cod Liver Oil" illustrated).

STBOURNE BRANCH, PHARMACEUTICAL SOCIETY, Cowner Art Gallery, Eastbourne, at 7 p.m. Lecure: "Modern Conceptions of Drug Action"

EDS BRANCH, NATIONAL PHARMACEUTICAL UNION, Hotel Metropole, Leeds, at 7.30 p.m. Mr. E. S. Mitchell, M.P.S., on "Business Methods in Re-ail Pharmacy."

AN CHESTER PHARMACEUTICAL ASSOCIATION and JUILD OF PUBLIC PHARMACISTS, Lecture theatre, it. Mary's Hospital, Manchester, at 7.30 p.m. oint meeting. Mr. H. Killshaw on "Photoraphy in the Service of Medicine."

TINGHAM BRANCH, PHARMACEUTICAL SOCIETY, ecture theatre, Medico-Chirurgical Society, 64 t. James' Street. Nottingham, at 7.30 p.m.

it. James' Street, Nottingham, at 7.30 p.m., Ideeting to discuss arrangements for British harmaceutical Conference, 1952.

TOTAL PHARMAGISTS' ASSOCIATION and BRANCH, Castle Hotel, Reigate, at 7.30 p.m. Mr. W. R. Roberts on "Recent Developments in Pharmacy

DUGH BRANCH, PHARMACEUTICAL SOCIETY, Com-nunity Centre, Slough, at 8 p.m. Film: "Con-

trol of Infection in Surgical Dressings." by Imperial Chemical (Pharmaceuticals), Ltd.

#### Wednesday, November 23

BLACKPOOL BRANCH, PHARMACEUTICAL SOCIETY, Casino, Blackpool. Dinner and dance.

PLYMOUTH BRANCH, PHARMACEUTICAL SOCIETY, St. Gabriel's Parish Hall, Peverell, at 7.30 p.m. Beetle drive.

TEES-SIDE BRANCH, PHARMAGEUTICAL SOCIETY, Wellington Hotel, Middlesbrough, at 7.30 p.m. Mr. A. J. Plowright (assistant-secretary, Pharmaceutical Society) on "Recent Changes in the Education Policy of the Society."

ULSTER CHEMISTS' ASSOCIATION, 73 University Street, Bellast, at 2.45 p.m. Annual meeting.

WIMBLEDON PHARMACISTS' ASSOCIATION, Zeeta House, Putney, at 6 p.m. Dinner and dance.

#### Thursday, November 24

DARTFORD BRANCH, PHARMACEUTICAL SOCIETY, Well-come Club, High Street, Dartford, at 8 p.m. Mr. A. Thomson, M.R.C.V.S., on "Some Re-cent Advances in Veterinary Medicine."

HARROW BRANCH, PHARMACEUTICAL SOCIETY, Oak Hall, Baptist Church, College Road, Harrow, at 7.30 p.m. Dr. W. A. R. Thomson on "Anticoagulants."

PORTSMOUTH CHEMISTS' ASSOCIATION, Solent Hotel, South Parade, Portsmouth, at 7.30 p.m. Miss D. Murgatroyd on "N.H.S. Pricing Problems."

#### Friday, November 25

EDINBURGH AND SOUTH-EASTERN SCOTTISH BRANCH, PHARMACEUTICAL SOCIETY, 36 York Place, Edinburgh, at 7.30 p.m. Mr. J. Carson on "The Recent British Pharmaceutical Conference," Miss D. Locker on "Hospital Pharmacy"; Mr. r. Hepburn on "Co-ordination of Pharmaceutical Language in Fairbach." Interests in Edinburgh."

SHEFFIELD BRANCH, NATIONAL PHARMACEUTICAL UNION, Lecture Room, Nether Chapel, Norfolk Street, Sheffield, at 8 p.m. Annual meeting.

# SEASONABLE PACKS

Coffrets for Christmas Trade. - Coty ingland), Ltd., 3 Stratford Place, Lon-on, W.1, have put up an attractive range coffrets for the Christmas trade, some which are illustrated here. They are all colourful and rich packings, tied with old cord, with a greeting card enclosed. he coffrets contain a selection of the following Coty products: A choice of several perfumes, lavender water, face powder, dusting and sachet powders, pressed powder compact, rouge, lipsticks, toilet water, bath salts, talc. Details of the full range of these seasonable packs will be forwarded to chemists upon receipt of their application.

#### TRADE NOTES

A New Lanolin Cream.—Thornton & Ross, Ltd., Linthwaite, Huddersfield, have introduced Samaritan lanolin cream, which is available in attractively presented cartoned collapsible tubes of two sizes.

Ruled Taxable.—The Commissioners of Customs and Excise have notified Parke, Davis & Co., Staines Road, Hounslow, that Cascara Evacuant is not eligible for exemption from purchase tax.

In Display Boxes. — Gloria shampoo sachets (see C. & D., November 5, p. 626) are issued by the manufacturers, A. & F. Pears, Ltd., Isleworth, Middlesex, in display boxes of thirty-six sachets, and not as previously stated.

Treatment of Epilepsy.—Sandoz Products, Ltd., 134 Wigmore Street, London, W.I., draw attention to their preparation Mesontoin, for the treatment of epilepsy, grand mal, Jacksonian and psychomotor attacks.

New Lip Colours.—Max Factor Hollywood and London (Sales). Ltd., 16 Old Bond Street, London, W.1, introduce on another page three new lipstick colours and give details of a new-sized container in which they are issued.

Now on C.F. List.—Cal-Ma-Vite Laboratories, Ltd., Albion Road, Horsham, Sussex, state that their product Vola catarrh pastilles has been accepted by the Council of the Chemists Federation; limited supplies are available.

Opportunities for Agents.—D. Devon, Ltd., 9 Norfolk Place, London, W.2, announce that they have terminated amicably an arrangement under which Stanwhite, Ltd., acted as distributors. In consequence, there are vacancies for agents in several areas.

Minimum Trade Order.—C. & M. Medical Products, Ltd., 558 Bath Road, Bristol, 4, state that, in a recent announcement of the trade terms for C.M.P. asthma remedy, the size of the minimum trade order (½-doz. bottles) should have been included.

Made in Britain.—Menley & James, Ltd., 123 Coldharbour Lane, London, S.E.5. point out that Dexedrine tablets are made entirely in Britain. They regret that at present supplies are not equal to demand, but are taking energetic measures to ensure that adequate amounts will be available shortly.

Trade Telephone Numbers.—J. I Whitelaw, paper merchant and printer, Weir Road, Balham, London, S.W.12, h produced a reference card of trade tel phone numbers (arranged in five shee with easy thumb index) a copy of which will send, on request, to any tracuser.

Tablets as Well as Granules.—Rocl Products Ltd., Broadwater Road, Welwy Garden City, Herts, announce that, addition to Ferro-Redoxon granules, Ferr Redoxon tablets are now available, eac tablet presenting 40 mgm, ferrous iron at 50 mgm, ascorbic acid. The tablets a available in packs of thirty and 120, at in a (tax-free) dispensing pack of 1,000.

New Half-strength for Children. response to requests from doctors, Wes minster Laboratories, Ltd., Chalcot Roa Regents Park, London, N.W.I, are iss ing Magsilate (coated aspirin) tablets in new half-strength size for children. Thalf-strength tablet is supplied in disper ing packs of 120 and 480 tablets free tax. The full-strength tablets are unchange

Available Shortly. — Glaxo Labor tories, Ltd., Greenford, Middlesex, a nounce that Cytamen, a vitamin B<sub>12</sub> co centrate produced from the mould Stre tomyces griseus by deep-fermentation methods, will be commercially available from December 5 in 1-c.c. ampoules (eacontaining 20 microgm. equivalent of vit min B<sub>12</sub>).

Blood-plasma Substitute.—The Crook Laboratories, Ltd., Park Royal, Londo N.W.10, offer Intradex transfusion soltion (Dextran saline intravenous), a 6 pent. sterile solution of Dextran put up Medical Research Council pattern bottl of 540 c.c. The product is prepared the company in conjuction with Dextra Ltd., makers of Dextran, a polysaccharin which glucose molecules are linked long chains and in side chains.

Agents in Britain. — Gale & Mour Ltd., manufacturing chemists, 37 Roth child Road, London, W.4, have taken ov the agency of Chemische Fabriek Flebessential-oil distillers, Hoogezand, Heland, Messrs. Flebo specialise in the dillation of a wide range of spice oi many of the requisite raw materials being grown on their own farms. Their production most cases surpass the minimum stadards laid down in the British Pharm copecia and British Pharmaceutical Codex

Price Alterations .- BAYER PRODUCTS, D., Africa House, Kingsway, London, .C.2, announce reduced prices for all ckings of Betaxan brand vitamin B<sub>1</sub> and oferol nutrient tonic.—The Crookes BORATORIES, LTD., Park Royal, Lonn, N.W.10, announce that on November the retail price of the 1-lb. jar of Halialt was reduced, and an 8-oz. jar was ing introduced; trade discounts are unanged.—Parke Davis & Co., Staines bad. Hounslow, Middlesex, announce reced prices for their Crysto-Vibex prerations, and the following additions to e company's price list: Gluco-Thricil ottles of 16 fl. oz.); glutamic acid tablets ottles of 100 and 1,000) and Abidec ops (bottles of 50 c.c. with dropper).-OCHE PRODUCTS, LTD., Broadwater Road, elwyn Garden City, Herts, announce bstantial reductions in the prices of Bewit vitamin B2 and Benerva vitamin B1 eparations; full details are to be found the company's announcement on anher page.—VITAMINS, LTD., Upper Mall, ondon, W.6, announce reductions in the ices of their vitamin B1 (aneurine hydrolloride) tablets and ampoules ovember 14.

Price Lists.—The 1950 price list and edical notebook issued by BAYER PRO-JCTS, LTD., Africa House, Kingsway, ondon, W.C.2, is now available. In its ghty-six pages it lists Bayer preparations, ith their composition, properties, indicaons, packings and prices, and includes a ction on therapeutic indications, notes on Disons, sterilisation, diet, etc. — ROBERT LACKIE, LTD., Pomeroy Street, London, E.14, have issued a loose-leaf price list l four parts giving details of packs and rices of their packed specialities; bulk rugs and chemicals; bulk toilet articles nd perfume concentrates; and chemists' indries.—Paines & Byrne, Ltd., Pabyrn aboratories, Bilton Road, Greenford, Midlesex, have sent in a copy of their 1949-50 rice list (effective on September 1, but only cently issued).—The Surgical Dress-GS Manufacturers' Association have repared a set of gummed printed slips hich they are asking their customers to ffix on the appropriate pages of the Assoiation's full price list when—on November 4-prices for cotton wool and gauze tissue B.P.C. and hospital qualities) and white and nedicated lints became increased and prices f cellulose wadding and tissue reduced see also C. & D., November 12, p. 677).

#### CODEX REVIEWED BY ITS EX-EDITOR

The British Pharmaceutical Codex, 1949, was reviewed by Mr. T. C. Denston, B.Pharm., Ph.C., F.R.I.C. (deputy-secretary, British Pharmacopæia Commission, and formerly editor of the Codex), at the Pharmaceutical Society's first evening meeting of the session held in London on November 10. He was introduced by THE PRESIDENT (Mr. H. Clement Shaw).

It was more than forty years, said Mr. Denston, since the first Codex was published as a book of reference for those engaged in prescribing or dispensing medicines. Scrutiny of the subsequent issues and Supplements showed an evolutionary change in the selection and treatment of the substances included. Whilst still an important work of reference for pharmacists and medical practitioners, the Codex had become increasingly a book of standards for drugs and preparations not in-cluded in the British Pharmacopæia. The new Codex showed greater discrimination in the selection of monographs and greater precision in the statement of requirements. The status of the Codex as a book of standards, he continued, should be carefully noted. The Food and Drugs Act 1938 provided no standard by which quality might be determined. The British Pharmacopæia was generally accepted in courts of law as providing a presumptive standard for the substances in it, and the Codex was similarly regarded in relation to non-pharmacopæial substances in it.

#### Arrangement of Parts

The general arrangement of the Codex had been modified by dividing the book into seven main parts. Antisera, vaccines and related substances had been separated and now appeared as Part II. A group of new monographs dealing with preparations of human blood constituted Part III, and the monographs on surgical ligatures and sutures comprised Part IV. The other three parts were that dealing with surgical dressings; the formulary; and appendices.

Information on monographs included in the 1934 edition but deleted in the new one was given in Appendix XII, but the data was not intended to provide standards for those substances. Important additions were given at the front of the Codex and each monograph had been redrafted to follow a uniform mode of expression. Each monograph opened with a

definition of the drug and a paragrap f general information, followed immedia by the standard, set out in a system manner comparable with the B.P. and United States Pharmacopæia. A sumn of the B.P. requirements for official stances was included. The informa given under Action and Uses had I brought into line with present-day c cal, pharmacological and pharmaceu experience. For certain groups of drug was found most convenient to give main information on the action and under the monograph on one membe the group. Thus the principal stater on the action and uses of the barbitur was given under barbitonum, and of sulphonamides under sulphanilamidum

#### Revised Standards

The speaker quoted examples to i trate the advances made in setting standards. Papaveretum now had f limits for anhydrous morphine and a processes for codeine, narcotine and p verine. New standards for charcoal ir ded two tests for adsorptive capacity. S dards for colouring preparations inclulimits of actual dye, with a method assay using titanous chloride. The cointensity of an aqueous extract or solu in terms of Lovibond units was now sp fied under burnt sugar and certain of items. Derris, which was subject to siderable variation in content of roten must now comply with minimum s dards. Assay processes were described full detail to ensure consistent results.

#### New Chemotherapeutic Agents

Among chemotherapeutic agents ac were sulphadimidine sodium, sulpham zine, sulphamerazine sodium, phthaly phathiazole, sulphasolucin, maphenide proguanil hydrochloride. For sodii stibo conas (used in the treatment of leishma sis) the standard included a test for absence of toxicity: a reference prep tion had been created and was in the tody of the Professor of Pharmacol School of Pharmacy, University of I don. New monographs were included cyclobarbitone and butobarbitone, the Formulary to the Codex inclumonographs on tablets of each drug; monobromisovalerylurea (under the bromvaletonum), dihydromorphinone, a

e methylnitrate, lobeline, lachesine and nethylphthalate were also added.

Iwo new detergents were included: rimide, a cationic detergent and antitic, and solution of sulphestol; also two tive aluminium silicates: fuller's earth d bentonite. For the preparation of ble, fine-grained creams and ointments, armacists had made use of various comrcial products generally referred to as ceryl monostearate. This was now in Codex under the title monostearin sulsificans.

#### erapeutic Substances Act Products

The new monograph tubocurarin, chlorim was drafted so that it corresponded the requirements of the Therapeutic bstances Amendment Regulations, 1948. mercaprol and oxophenarsine were also derstood to have engaged the attention the T.S.A. authorities, and the Codex cluded monographs on dimercaprol, oxoenarsine hydrochloride and oxophenarie tartrate. Injection of dimercaprol was 5 per cent. solution of dimercaprol in nzyl benzoate and arachis oil.

Many monographs on vegetable drugs, w rarely used in orthodox medicine, had en deleted, and twelve monographs ded. Two drugs used extensively in dia were described in the Indian Phar-copœial List, 1946, namely andrograis, a bitter, and rauwolfia. which figured equently in Indian literature. Hyoscyaus muticus. a source of hyoscyamine and ropine, and Digitalis lanata, of digitoxin d digoxin, were included. There were few instances in which it was felt desirle to retain, or even to add, a monoaph on a substance the preponderant use which was in the treatment of animals. ienothiazine was an example. Attention as drawn to the dangers attending its w rare use in human medicine. tablished use of DDT in preventive medine called for the addition of a monoaph, and the title dicophane had been evised.

#### erum and Human Blood

The segregation of antisera, vaccines and related substances into one section are into the Codex) brought together lated monographs that would otherwise the been widely scattered through the eneral monographs. Included were antifus (covering antitoxic, antibacterial and attivital sera), toxoids and bacterial vactures. The most important new monographs.

graphs in the section concerned anthrax, measles and scarlet fever. Three medicated dressings had been deleted, and a new paraffin gauze dressing, corresponding to tulle gras, added.

#### Formulary

There were now about 850 monographs in the Formulary, of which about 250 were new. Many of these changes had been foreshadowed in the National Formulary, 1949, owing to the close collaboration between the committees responsible for compilation of the two books. Preparations belonging to the followfirst time:—Crushable glass capsules, draughts, ear-drops, nasal drops, mixtures for infants, linctuses for infants, mouthwashes. The Imperial quantities of the ingredients of many preparations were stated for one dose to allow for a better appreciation of the dose of active ingre-dient being administered. Eye-lotions and eye-drops had been adjusted to give products approximately isotonic with lachrymal secretion.

The standards for preparations in dosage form were extended and given for most tablets, solution-tablets, pills, capsules and for some lozenges. The general standards for pills and tablets included the requirement that "When pills or tablets of the British Pharmaceutical Codex are coated with sugar or other suitable material, no colouring matter may be added to the coating." The Appendix on the determination of vitamins was new, and the final Appedix on deleted monographs, constituted a temporary resting place and "a long farewell to all their former greatness."

DR. C. H. HAMPSHIRE (secretary Pharmacopæia Commission) praised the Society and Mr. Denston for producing "a wonderful book full of valuable information." Several members paid tribute to the part the late Mr. C. E. Corfield had played in producing the Codex. A vote of thanks to Mr. Denston was proposed by Mr. C. W. MAPLETHORPE and seconded by Mr. H. TREVES-BROWN.

Mites in Stored Foods.—An illustrated paper describing mites that live on stored food products, their predators, and a number of mites that feed on small fungi or are parasitic on insects and rats, has been published for the Ministry of Agriculture. (Copies from H.M. Stationery Office, Kingsway, London, W.C., price 3s.).

—Dispensed with Care . . . can be prescribed with Confidence

This safe, reliable and well tried preparation can confidently be recommended as a general tonic during recuperation. It helps to restore health and vitality and to replenish nervous energy. The pleasant taste and quick action of John Bell's Tonic Phosphates has established its wide popularity. Retails at 2/6 and 4/3 inc. tax.

L. CLII NOVEMBER 19, 1949 No. 3639

#### An Advance in Malariology

NOTABLE advance in the knowledge of e biology of the organisms responsible malaria — the demonstration of the e-erythrocytic stage of Plasmodium falbarum, the causal agent of malignant tern malaria in man-has just been ected by Colonel Shortt, Professor N. amilton Fairley, Sir Gordon Covell, Mr. C. Shute, and Dr. P. C. C. Garnham British Medical Journal," November 5, 1006). The demonstration is remarkle for the technique used in its achieveent. As no monkey plasmodium could be ed as a working model for the observains (a difficulty associated with work on alaria to which we referred recently), it is necessary to conduct the experiment man, and the organisms were finally monstrated in the liver of a human lunteer, to whom the authors rightly pay bute.

Anopheline mosquitoes were infected by eding on a subject carrying in his blood any gametocytes of the Rumanian strain *P. falciparum*, and were afterwards fed blood meals for fourteen days — the ne which dissections showed would be timum for infecting the volunteer. The lunteer was then subjected to biting of e insects on three successive days, a total 770 bites being made. A wedge-shaped ece of the subject's liver was removed o hours after the first biting, and micropical examination of sections of it owed the pre-erythrocytic stage of *P. liparum* to be present in three forms

corresponding to the three separate twenty-four hour periods of development. The forms 140 hours old measured about  $60\mu \times 30\mu$ , the merozoites were formed, and the schizonts ready to rupture. These was no cellular reaction to the parasites in the liver.

The authors found that the pre-ery-throcytic forms of *P. falciparum* closely resembled those of *P. cynomolgi* and *P. vivax*. The next stage, for many reasons, would seem to be to determine why *P. vivax* (the exo-erythrocytic forms of which are presumed to be the cause of relapses in vivax infections) is more difficult to eliminate from the body than *P. falciparum*.

#### Development-charge Procedure

Traders must now be aware that, if they wish to make any alterations to their premises or to commence trading on premises that previously have been used for other purposes, they will most probably become liable for a development charge under the Town and Country Planning Act, 1947. Generally speaking, the amount of the charge payable is represented by the additional value that the premises will acquire as the result of the planning permission that has been obtained to develop the property in the manner proposed—that is to say, either by making the alterations in question, or by using the premises for the particular use intended.

It should be pointed out that the trader will not be called upon to pay for the additional value the premises will have after the work has been executed or after the new user has commenced to operate. Thus, for example, if premises in their present condition are worth £2,000, and would have a value of £2,500 after the work has been executed, the development charge would not be £2,500—£2,000=£500. Instead, the premises in their present state might well have an additional value of £100 and be worth £2,100 immediately permission were granted to execute the work in question. That difference of £100 (or approximately £100) would be payable by way of development charge. It will be for the Board to fix the amount and its discretion is elastic in this respect. The

Board would be likely to charge the maximum where the particular development proposed, although permitted, is not especially desirable. In other circumstances, where the development was one worthy of being encouraged, the amount of the charge might be very small.

In dealing briefly with the procedure to be adopted in determining the development charge where the execution of work, on a change of the previous user, is contemplated, we may give a piece of practical advice. If there is the slightest doubt whether the charge is payable, the doubt should be settled in advance, before the work is put in hand. For this purpose the usual application is made that has to be made in circumstances in which the charge is undoubtedly payable. Form Dr should be obtained from the local authority at the time of applying for the necessary planning permission. The completed Form DI should be sent with the application for planning permission, together with all necessary plans and drawings, to the local authority. The authority then forwards the Form D1 to the regional office of the Central Land Board for the district in which the property is situated. The Form Di must be signed by the trader personally, or if he employs an agent, he must send with it a signed authorisation empowering the agent to act on his behalf.

#### **Proof Required**

The application to the Central Land Board is not considered by them unless they are satisfied that the Form has been properly filled and all the necessary plans, drawings and other documents supplied. In addition, the Board will require proof from the applicant either that he has an interest in the property or that he can obtain an interest, so as to enable him to carry out the proposed development. Proof will also be required that the proposed development is likely to be begun within a reasonable time (for this purpose, not likely to be more than one year). If everything is in order, the applicant then receives within fourteen days an acknowledgment of his application, together with an invitation to make an early appointment with the District Valuer to discuss, and if possible agree, the amount of the charge. In a event, within one month the Distriction Valuer issues direct to the applicant recommended figure for developm charge.

Once the amount of the developm charge has been settled, the next thing payment of the charge. Payment may required in full, or, at the Board's distion, it may be payable in instalme The amount of each instalment and date of payment are determined by Board. In any case, no development r be undertaken until the Board has iss its "Certificate of Satisfaction" to effect that the charge has been paid secured to its satisfaction.

Where the charge is payable in ins ments, the Board normally requires applicant to enter into proper covers for the payment of the instalments takes a charge on the property by way security. As an intending purchaser lessee of any property, a trader she make sure to inquire whether there I been any alterations or any change of since July 1, 1948. If so, he should mand to see all the correspondence the Board and should also require protion of the "Certificate of Satisfaction

A lessee contemplating any developm should note that the charge is payable and for all, and that the permission carry out the proposed development endure for the benefit of the property all time. The lessee's interest, howeve only a limited one, lasting for seven, f teen or twenty-one years, or whatever may be the length of the tenancy, that reason the landlord should approached to shoulder a proportio share of the charge.

If a change of user is contemplated attracts liability to the development chathe lessee should apply merely for a lited permission to use the premises for new purpose for the duration of tenancy. In this way the need to payfull amount of the charge will be avoidand the tenant will himself enjoy exively during the period of his tenamental tenamental property.

### QUESTION TIME AT HARROW

the October meeting of the Harrow nch of the Pharmaceutical Society, nbers met Mrs. J. K. Irvine and Messrs. S. Howells, C. W. Maplethorpe, and J. Wilson (members of Council) to hear ropinions on questions of present-day rmaceutical significance.

#### olth Centres

he opening question dealt with health res. Mr. WILSON said that, normally, rmaceutical service would not be red in health centres except where talist services were provided. Mr. wells considered that their development would be retarded for at least ten

rs for economic reasons.

Il members agreed that, where pharpeutical service, whether advisory or ctical, was provided there should be a rmacist in control. Replying to a quesby MR. HORSLEY concerning dispensby unqualified persons in a dispensary the Bristol area, MR. WILSON pointed that certain clinics had existed since ut 1928, but that they had been inigated and steps had been taken to by them into compliance with present ditions of service under the Act.

peakers agreed that the present con-tual relationship between the Ministry Health and the individual pharunsatisfactory both ties. Mr. Howells pointed out the method of deduction s seemed to be the real difficulty.

WILSON stated that a clause in the ent amending Bill for which Mr. H. N. stead had pressed was intended to give employee pharmacist the right of audie before an Executive Committee, Mr. LKINSON said that it was the policy of London Committee to allow the pharcist, when not the actual contractor, to ear at a test case inquiry, and on some asions the hearing had been deferred il the pharmacist could attend. Mr. WELLS stressed that that was only by rtesy and not by right. Mrs. IRVINE I that the regulation promised by the nister would give status and recognition he employee pharmacist.

Referring to the Society's educational icy, Mr. Maplethorpe said that figures wed that there was a steady flow of rants into pharmacy. There had been rush of applicants for the one-year within the stated time limit, but a

large number had voluntarily agreed to change over to the two-year syllabus. The number of students taking the two-year course had progressively increased from eighty-three in 1945 to 236 in 1949. Dealing with the desirability of employing socalled technical assistants, Mr. MAPLE-THORPE said that unqualified assistants always had been employed and that they undoubtedly filled a need. Establishment of standards of training and recognition of unqualified persons was undesirable and might be detrimental to the position of the pharmacist. All the speakers agreed that the shortage of qualified man-power was a fictitious one, as many pharmacists were not giving full-time attention to purely pharmaceutical practice.

#### Corrections Not Published

Mr. Wilson voiced the feeling of all present when he remarked that the recent adverse publicity of the pharmaceutical service was deplorable. He said that the Society, the National Pharmaceutical Union and the Ministry had issued statements refuting the assertions but, so far as was known, only one national newspaper had published the official correction. The speakers agreed that the present method of balanced factual reports of Council meetings for publication was the right one. Reports embodying the personal views of Council members would not be in the best interests of pharmacy, Mr. Wilson compared the method of representation in the N.P.U., which was territorial, with that of the Society. So far as the Society was concerned there were always sufficient candidates to make a contest, whereas in the last N.P.U. election only three constituencies out of sixteen had been fought. In territorial representation there would always be a tendency for the seat to go to the member living in the largest town in the area.

MR. Howells said that he thought the remuneration of the pharmacist compared favourably with that of other professions, and cited the example of the salary received by a newly qualified doctor and the pharmacist. MISS PLEAR raised the subject of hospital pharmacists' salaries, and all the speakers agreed that their remuneration was inadequate.

The meeting closed with a vote of thanks to the speakers, proposed by Mr. F. J. Conduit and seconded by Mr. H. W. Tomski.

#### PHARMACEUTICAL SOCIETY OF IRELAND

The November Council meeting of the Pharmaceutical Society of Ireland was held in Dublin on November 8, Mr. T. C. Scott (president) in the chair. Also present were Messrs. J. P. Kissane (vice-president), J. Gleeson (treasurer), P. A. Brady, P. C. Cahill, G. C. O'Neill, N. A. McKane, P. F. McGrath, C. J. Cremen, A. A. Toher, J. J. Roche, P. Brooke-Kelly, M. Costello, P. Fullam, M. Power and T. B. O'Sullivan. Apologies were received from Mr. R. Daly and Mr. C. D. O'Shea.

#### Registrations and Removals

The Registrar (Mr. James G. Coleman) reported that the following Preliminary registrations had been recorded since the previous meeting:—J. C. Boylan, Anna H. Cassidy, Mary E. Coffey, Agnes M. P. Cunningham, Mary M. Flanagan, O. Mary Flannery, Ellen A. A. Fraher, P. J. Fitzmaurice, Katherine Doherty, S. Healy, E. J. Kennelly, Mary Kieran, T. Mary Lawlor, Ellen P. Murphy, P. Mary Murphy, T. F. R. O'Neill, T. B. Whelton. Deaths or removals under Section 25 included the following:—Francis P. Duffy, M.P.S.I., Isaac Henry, L.P.S.I., Patrick Kearney, L.P.S.I., Joseph Byers, R.D., George Cheevers, R.D., John Gray, R.D., John Richardson, R.D., Thomas Skinner, R.D., Harry Smith, R.D., John Orlando Arthurs and George Robert Campbell, Assistants. The following changes of address were notified:—Patrick Cummins, M.P.S.I., to 125 Celtic Park Avenue, Donnycarney, Dublin; Joseph M. Burke, M.P.S.I., to 24 Belton Park Road, Dublin; T. Plunkett, L.P.S.I., to Croom, co. Limerick; P. J. Mallon, R.D., to 18 Lower O'Connell Street, Dublin; and J. Hardiman, to Bracklone, Portarlington.

#### Committee Reports

The House Committee's report, which stated that an arrangement made between the Society, the Irish Drug Association, and the pharmaceutical wholesalers for checking the qualifications of persons opening new pharmacies had been approved, was adopted. The Council agreed to take no action in response to a letter from the manager of the Pharmaceutical Press urging them to recognise the British Pharmaceutical Codex, or Parts I to V, as a book of standards. A recommendation that the year's Conferring ceremony should be

held on December 6 was approved, dethe registrar was instructed to have a detisements issued for the post of example to the Assistants' examination. All from the chemists' branch of the Distributive Workers' Union had requise the registrar to receive a deputation to cuss the position of apprentices under Society's proposed new education school but the Committee recommended that Society should not negotiate with Union; the recommendation was approximately

The Schools Committee reported a letter had been received from Mr. Hogan setting forth the views of Limerick Chemists' Association on the ciety's proposed education scheme. Committee recommended that the should be passed to the Education (mittee for consideration, and the Coadopted that course. The Council agreed to advance the 1950 Pre-Regition examination to October 17.

#### Prosecutions

THE LAW ADVISER (Mr. John J. nor) reported on recent prosecution which fines of £24 had been impleading to two merchants at Freshford fillegally selling poisons. In his report recent prosecution against Mr. Samu Smith, M.P.S.I., by the Dublin Contion, regarding a sale of chillie paste C. & D., November 5, p. 624), Mr. Nor observed: "In my opinion, no parose during the case about which the ciety need be seriously concerned a gards its members."

The examiners, reporting on the ober Licence examination, stated that the fifty-six candidates who entered, so women and seven men had passed. For Assistants' examination, twenty-seven didates had entered, and thirteen parthe examiners reported that the standard been poor. Four sat for the Register Druggist examination, one passing.

Licence certificates of the followere signed and sealed:—Misses TO'Connor, Teresa Mary O'Connor, Ibeth V. Whelan, Margaret Ita O'Rioi Josephine C. Leahy, and Messrs. P. P. sidy, G. V. Lynch and M. S. Rioi Messrs. D. J. Browne, P. Fahey, N. rell, J. L. MacNamara, J. P. Newell, Quinn, Mrs. H. O'Flynn, Miss Cath Spillane, and Miss Bridget E. Brady,

ted members of the Society. The folling were nominated for membership:-P. J. Connolly, Bandon; Miss Cathe F. P. Leahy, Limerick; Messrs. P. A.

onnor, Midleton; G. V. King, Dun ghaire; Mrs. Mary McCarthy, Dublin; s Anne Lacy, Blackrock; and Mr. W. J. dner, Dun Laoghaire.

#### ion Urged

HE REGISTRAR said they had not reed any further reply from the Minister Health to their request to receive a utation, and on the president's sug-ion it was decided to communicate in with the Department. Mr. McKane ressed the Council on the failure of the t committee to reach agreement with veterinary representatives on the quesof having all veterinary preparations handled by pharmaceutical chemists, and urged strong action in the matter. MR. J. J. Roche outlined the negotiations of the joint committee with the veterinary surgeons. A stage had been reached when the veterinary surgeons agreed to the chemists' formula, then to their astonishment the veterinarians had reversed their decision. He suggested that a further meeting of the joint committee should be held to consider the situation; this was agreed. MR. KISSANE said the previous meeting with the veterinarians had been "a complete failure." It was agreed, on the suggestion of Mr. Brady, that the officers, with Messrs. Cahill and O'Neill, should form a subcommittee to go into the question of a new seal for the Society and report back to the Council. The Benevolent Fund Committee passed some grants.

#### MINISTRY'S CHIEF PHARMACIST AT HULL

H. Davis (chief pharmacist, Ministry (Health), addressed the Hull Chemists' pciation and Branch on "The Pharmatical Service of the National Health vice" on November 4. He said he was in a position to comment on the Prime lister's recent statement on proposed of the charges would obviously ree careful consideration by the adminisive section of the Department in order ninimise interference.

r. Davis drew attention to statistics ted by the Minister of Health at a ret Press conference (C. & D., October p. 524), and outlined the relationships been the various divisions of the Ministry the pharmaceutical service. The sups division had several pharmacists dealwith the production and maintenance supplies of drugs and appliances re-red for the service, and acted with the partment of Health for Scotland for the tral purchasing of drugs and chemicals the Scottish hospitals. Dr. Davis ded the position of pharmacy in the itley Councils and commented on the come of the recent negotiations between hospital pharmacists and the manageit side of Committee C. Few readers he reports in the pharmaceutical Press, said, realised that several chief pharists' posts in certain teaching hospitals um, and he was particularly pleased 1 the extra payment of £25 per annum rded for higher qualifications.

g]

The pricing of prescriptions presented many difficulties, and he thought that many chemists failed to realise the magnitude of the task of handling such a vast number of prescriptions. By pricing prescriptions over 5s. and 25 per cent. of those under 5s., the bureaux were pricing in full as many prescriptions as in the days of National Health Insurance. The aim was to price in full as many prescriptions as practicable.

Some pharmacists criticised the testing of prescriptions, but the scheme was in-evitable in view of the large amount of public money expended on prescriptions. Dr. Davis said it was pleasing to think that pharmacists were now devoting a greater proportion of their working hours to doing the work for which they were trained.

In the discussion that followed, Mrs. E. A. BROCKLEHURST drew attention to large hospitals where the pharmaceutical work was being done only by dispensers holding only the Apothecaries' Hall dip-She suggested that a pharmacist should be on every hospital management committee. Mr. E. A. BROCKLEHURST suggested that the pharmacist should not be held responsible for substandard dressings supplied on test prescription. Davis pointed out that there was no contract between Executive Councils and the dressings manufacturers, and therefore the supplier must be held responsible; he felt sure the chemist would obtain satisfaction from the suppliers who had supplied the dressings under warranty.

#### PACKAGING PROGRESS ON DISPLAY

THE first National Packaging Exhibition, held in Manchester in October, was organ-ised by Provincial Exhibitions, Ltd., in collaboration with the Institute of Packaging. With one hundred and twelve exhibitors, occupying 50,000 sq. ft. of floor space, the Exhibition was more than half the size of America's Packaging Exposition (with its eighteen years' start on Britain), and exhibitors reported a high level of trade in-The Exhibition was acclaimed a most successful venture by the majority of the exhibitors, with extensive business done. In consequence, the organisers have booked the Empire Hall, Olympia, London, for a second National Packaging Exhibition early in November 1950.

The Institute received the full support of a number of official organisations, including the British Standards Institution, the Printing and Allied Trades Research Association, British Railways, and the Board of Trade. The Board of Trade stand, designed to promote good packing for export, showed examples of good packing by the Admiralty, War Office and Air Ministry. The Council of Industrial Design contributed a panel giving information about the services it can render.

#### Parliamentary Secretary's Address

During the Exhibition the Northern Branch of the Institute held a dinner in Manchester at which the principal speaker was Mr. John Edwards, O.B.E., M.P. (Parliamentary Secretary, Board of Trade). Mr. Edwards quoted the American Department of Commerce publication "Digest of International Developments-Containers," for the statement that "One of the outstanding developments in packaging in the United Kingdom in 1948 was the formation of the Institute of Packaging." As a result of the new exchange rates, he said, British exporters had a great opportunity to help to close the dollar gap by selling more of their products in the North American market, the most "package-conscious" market in the whole world. It was not sufficient to produce the best goods in the world; they must be dressed up to look good, and exporters must remember that what looks good to Britons might not look so good to others with different tastes. Americans and Canadians were more easily influenced by the appearance of the package than the British, who had experienced years of austerity. Aims of good packaging include identifying the product without troubl forming the customer of its use, and ing the customer to buy. One other lity for U.K. exporters was that the age, like its contents, should have thing British about it. Mere imitations American packaging might be fatal le had seen instances where American p ging experts had drawn attention to Bah packs as "brilliant examples of packaging" but, on the whole, U.K. n facturers—at least, in the initial stag of their entrance into the U.S. market-Id not seem to succeed in designing packaging according to the characte c requirements of that market. The I d of Trade had commissioned British East Trade Research Organisation to ma a survey of the Canadian market, an e believed it would be available earl n 1950.

#### An American Viewpoint

In an address on "How to Pack fo American Market," given to the Br on October 13, Mr. Charles A. Br (Proprietor of "Modern Packaging," York) gave a "simple recipe" for ear the favour of American consumers. First step was to make a careful study what American needed and wanted. A cans would buy things that promised vulility or easthetic satisfaction, but goods must be made available at prepresenting attractive values.

Included amongst goods shown wer

following:

Adhesives.—Arabol Manufacturing Co., (cold glues, gums, pastes, dextrins, anima synthetic resin glues, heat-sealing adhesives, ber and latex compounds; self-adhesive tapes.

NATIONAL ADHESIVES, LTD. (vegetable and thetic adhesives).

Adhesive Tapes.—A. DE St. Dalmas & Co. (pressure-sensitive and waterproof packaging t Durex Abrasives, Ltd. (self-adhesive tapes

LLEN, CARVER & WILSHAW, LTD. (rigid and osible boxes and cartons; also machine-made ite and Kraft bags).

FRED EVA & SON, LTD. (printed folding car-also showcards—" complete service from der-artist to finished product ").

INT PARTNERS, LTD. (cartons and rigid boxes,

ding new safety pack for ampoules). GIENIC WAXED CONTAINER CO., LTD. (wax-imlated cartons).

E. INGHAM & Sons, LTD. (types of cardboard and cartons).

RBURY PRINTERS, LTD. (cartons and labels,

ler-proof envelopes, etc.).

IOMAS PRESTON GROUP OF COMPANIES (printed r bags, transparent film bags and boxes, colble outers, folding cartons, laminated boards, material, etc., as part of a "complete packservice ").

BINSON & SONS, LTD. (rigid, round and foldcardboard boxes, drums (including wax-imnated), pill and ampoule boxes, etc.)

JGH STEVENSON & SONS, LTD. (plain and fancy ons, boxes, tubes, ointment and pill boxes). LLIAM THYNE, LTD. (cartons and boxes). ket, = ble ea

VIVERSAL PULP CONTAINERS, LTD. (moulded l pulp containers for carriage of essences, chel preparations, etc.).

p Liners.—Southern Cork Co., Ltd. (discs Il facings for bottle and jar caps, and discs crown corks; also cork- and rubber-bonded ing materials).

rton Printing.—Brown, BIBBY & GREGORY, ; T. A. LEVER & SONS, LTD.; MARDON, SON & , LTD.

llapsible Tubes .- JOHN DALE, LTD. (metal and lic tubes; also metal boxes; plastic caps, etc.). A. Myles Co., Ltd. (collapsible tubes-adages claimed are non-toxic character of the rials, lower production, transport, interiate and outer packaging costs, and high collaring capacity).

rrosion Inhibitor. - SHELL CHEMICALS, LTD. I corrosion inhibitor for iron and steel).

rrugated Paper. — CORRUGATED ERIALS (SALES), LTD. (rolls and sheets; also s and crates in double-faced corrugated board, and printed).

nhossed Seals.—WALSALL LITHOGRAPHIC Co., (seals, labels, wrappers, counter displays).

ling Machines .- AUTOMATIC WEIGHING AND ING MACHINE Co. (A machine that autocally feeds envelopes or packs from a magazine, with an exact quantity of material, passes to a eyor, gums and seals at a speed of sixty to ity per minute; a cellophane wrapping machine; utomatic ampoule filling and sealing machine; automatic precision weighing machines).

HN DALE, LTD. (metal and plastic tubes; also

ll boxes; plastic caps, etc.).

orge Driver & Son (automatic weighing and g machines; conveyor feeds, etc.).

EAL PACKAGINGS, LTD. (machines for automatic ing of tablets, pills and capsules in tape style; -sealing crimpers; stretch wrapping machines). DUSTRIAL PRODUCTS (SPECO), LTD. (high-speed matic weighing machines).

NEALIS HARRISON, LTD. (vacuum fillers, including portable cabinet models).

ROBERTS' PATENT FILLING MACHINE CO., LTD. (liquid filling machines and ancillary plant for use with bottles, metal drums, etc.).

SOUTHALL & SMITH, LTD. (machines for weighing

and packing powders and granules).

Insulated Containers.—JIGWOOD, LTD. (containers for transport of medical supplies, etc., through extremes of climate).

Label Printing Machines .- DAPAG (1943), LTD. (small printing and overprinting machines),

Labelling, Stapling, etc., Machines.—Brathy & HINCHCLIFFE, LTD. (fully automatic labelling machine for bottles, jars, cans).

LAWTON SUPPLY Co., LTD. (label tackers, staplers, stencils, numbering machines, etc.),

D. TRAPOW & Co., LTD. (precision labelling and fully automatic ampoule-labelling machines).

Liner Crates .- HULL MERCHANTS AMALGAMATED Box Co., Ltd. (crates with aluminium linings).

Metal Containers. - E. ILLINGWORTH & Co., Ltd. (plain and decorated metal containers; also plastic cases).

G. T. Johnson & Co., Ltd. (double-seamed and taper-necked drums; lever-lid tins, etc.).

METAL CONTAINERS, LTD. (steel drums).

READS, LTD. (patented drums designed to overcome the inherent weakness at the top joint where, by the double-seaming process, head and side walls are joined; Ringseals for lever-lid tins, patent pilfer-proof and other closures).

Metal Closures .- METAL CLOSURES, LTD. (rolledon hermetic sealing for screw-topped bottles).

Packaging Tapes .- P. P. PAYNE & SONS, LTD. (plain and printed cotton tapes).

Paper Bags .- BIBBY & BARON, LTD. (plain and printed bags in normal and protective papers).

Wrapping Materials.—Bemrose & Sons, Ltd. (printed, punched and waxed wrappings and labels in reels or sheets; printed spiral wrappers).

CHARLES E. DOUGLAS & Co., LTD. (linen, rayon and cotton yarns; the Nicotle moulded cellulose acetate for individual wrapping of pharmaceutical and similar products; also semi-automatic machinery for wrapping soap tablets, etc.).

GOODYEAR TYRE & RUBBER CO. (GREAT BRITAIN), Ltd. (Pliofilm transparent, odourless, moisture-

proof, heat-sealable film).

IMPERIAL CHEMICAL INDUSTRIES, LTD. (Alkathene film and laytlat tube).

IVERS-LEE (GREAT BRITAIN), LTD. (applications of Sealtite packaging, including envelope with positioned printing design to hold one to four tablets; also dispensing packs in laminated foil, and coloured packaging tapes.

J. H. Sankey & Son, Ltd. (Sisalkraft reinforced waterproof packing materials; also made-up caseliners for drugs, cosmetics, etc.).

SAMUEL JONES & Co., LTD. (waterproof wrapping papers, non-curling gummed papers, and coated papers and boards; also Gumstrip sealing tapes and sealing machines).

During the exhibition Autorex precision labelling was being independently exhibited in Manchester by Rawsons (Labelling Machines), Ltd.

#### LONDON MEDICAL EXHIBITION

Many new products, the result of development in numerous avenues in the pharmaceutical province, were shown on the stands of the exhibitors (more than 100 in number) at the 1949 London Medical Exhibition (organised by the British & Colonial Druggist, Ltd.), which opened in Westminster on November 14.

New antihistaminic drugs included Histantin (dl-1-(p-chlorobenzhydryl)-4-methylpiperazine monohydrochloride), by Burroughs Wellcome & Co., and Di-Paralene by Abbott Laboratories, Ltd. (The preparations will not be available for general distribution for two or three weeks). Among others was Thephorin, by Roche Products, Ltd.

Exhibits from the antibiotic field included dihydrostreptomycin sulphate and a number of preparations of penicillin G, by Glaxo Laboratories, Ltd., Allen & Hanburys, Ltd., showed a penicillin styptic powder containing calcium alginate and calcium penicillin, packed in a small bullet-shaped metal applicator tube, and intended for topical application in dental and general surgery. Two new sulphonamide drugs shown were Urolucosil (2 sulphanilamido-5 methyl-1.3.4. thiodiazole), by William R. Warner & Co., Ltd., and Metrasil, a compound of sulphanilamide and para-aminosalicylic acid, by Ward, Blenkinsop & Co., Ltd., both of particular use in the treatment of urinary infections. Metrasil is exceptional in being effective against Streptococcus fæcalis. Crystals of Chloromycetin, the first synthetic antibiotic, were shown by Parke, Davis & Co.

#### Anæsthetics and Apparatus

Among the anæsthetics shown was Neothyl (methyl N-propyl ether) a substitute for ether by J. F. Macfarlan & Co. Apparatus for administrating trichlorethylene simply at childbirth that had been described by Epstein and Macintosh in the "British Medical Journal," November 12, was being shown by Medical Industrial Equipment, Ltd. A new compact Gillies type inhaler was shown by British Oxygen Co., Ltd. Other apparatus shown included a newly designed aerosol projector for insecticide using a carbon dioxide bomb by Sparklets, Ltd.; and, by Gade Laboratories, Ltd., Teller-test sterilisation witnesstubes which indicate the time and temperature of autoclaving of dressings, etc., by change in colour, the disappearance of cer-

tain words, and appearance of other on their surgical stand Allen & Han ys, Ltd., showed a newly designed neur gical operation chair,

New blood products, etc., exhibite ncluded Intradex, a transfusion soluti of Dextran suitable for use as a blood p substitute, by the Crookes Labora es, Ltd., and Thromboplastin, by Evans li-

cal Supplies, Ltd.

Eli Lilly & Co., Ltd., showed lalin compound, a new preparation co ning members of the vitamin-B completetainable as injection, and Pulvules fo al administration. Energen Foods Co., showed a series of wheaten food process. with low starch and high protein con s; and Imperial Chemical (Pharmaceut s). Ltd., Paludrine, Sulphamezathine and eparations of Cetavlon including Cet on jelly 1 per cent, for sterilising loss. British Chemicals & Biologicals, Ltd ntroduced Hyalase, a preparation of he mucolytic enzyme hyaluronidase indicad for use when injecting large volum of fluids, etc. Among the other prosts from that group of companies were inatosan dermatological creams, Be 's food, Sanatogen, etc. The Armour La latories showed a full range of Glanoid is cinal products of animal origin, and A tt Laboratories, Ltd., the Aerohalor at tus for the inhalation of penicillin Nembutal, Pentothal, etc. Savor Nembutal, Pentothal, etc. Savor & Moore, Ltd., stressed their range of 1poules, which now covers most of the icial injections in addition to other pre 13tions. Organon Laboratories, Ltd., shild a range of Steroid hormones, etc., P 10mon forte, methyl thiouracil, and calmarol. Ortho Pharmaceutical, Ltd. 1-nounced the forthcoming availabili of Nidoxital, a preparation for the color of nausea and vomiting of pregnancy d Hexital for management of menor a They displayed a range of preparation for the control of conception and the apy of infertility. The stand of Boots e Drug Co., Ltd., was divided into see 13 dealing with dermatology, pædiatrics matology, anæsthetics, venereology, cillin, radiology and gynæcology. preparations shown included suspensi of sulphathiazole prepared specially for fants and children. Bayer Products, were introducing Neo-Selarom, a social chloride free table salt. Other ex

included Cuprelone, an organic confi

cound for intravenous injection in cerneurological diseases. Fassett & John-Ltd., showed Anistan tablets, a range o lonsol antiseptic products, baby powetc. A new preparation shown by sh Schering, Ltd., was Iviron, a sterile stion of a specially prepared, sacchara iron oxide. Other exhibits included Vitamins. Ltd., tralon belladonna. ved their new preparations Folex and gel syrup (containing vitamins A, B1, C D). Reckitt & Colman, Ltd., gave ninence to surgical Dettol, a spirituous tion coloured either blue or orange a intended for pre-operative application the skin. Parke, Davis & Co. showed lec drops made to a modified formula, dryl, etc. Moore Medicinal Products. , were showing Metheph tablets, which a particular use in enuresis, Brovon ma inhalant, and inhalers packed in r aluminium containers. On the same of Clinical Products, Ltd., showed hopax, Polycrest anti-pruritic cream, allen & Hanburys, Ltd., showed isolaline sulphate, Eulissin and Antilusin, ariety of penicillin preparations, Calc in chocolate-coated tablets and DFP oules, packed in a specially designed containing charcoal. On the stand of he Products, Ltd., was displayed a el of their works rotating in a large made of transparent plastic. Oxo, , showed for the first time a complete ge of culture media in tablets or gran-John Wyeth & Brother. Ltd., showed drox and Ossivite, etc.; Cow & Gate, Prentolac and Hemolac, Peptalac a new modified Lacidac; and Ward, ikinsop & Co., Ltd., Penotrane cream Sterathal brand of phthalyl sulphace. ide. J. C. Eno. Ltd., showed Caleno, eutral stable calcium aspirin. On the e stand were the products of Dinne-& Co., Ltd., the Thermogene Co., , Harwoods Laboratories. Ltd., and e Laboratories, Ltd. Glaxo Laboraes. Ltd., were announcing that Cyta-, a vitamin-B<sub>12</sub> concentrate produced the mould Streptomyces griseus by b-fermentation methods, would be comcially available from December 5 in c. ampoules. Pharmaceutical Speciali-(May & Baker), Ltd., were showing histaminics including the new Phener-, Flaxedil, and Diparcol. H. R. Napp, , showed on their stand (designed like octor's study) a new preparation Minlin, containing vitamins A, B, C and vith mineral salts. Herts Pharmaceuti-

cals, Ltd., showed Paramisan sodium. Thalistatyl, Penucin penicillin prepara-tions, etc. Burroughs Wellcome & Co., on whose stand was a new model of their unicorn trade mark, showed Neo-Epinine, Physeptone, globin insulin, etc.; Hanovia, Ltd., a selection of ultra-violet and infrared lamps and the Hanovia air Sanitizer; and the Lederle Laboratories Division, Cyanamid Products, Ltd., Aureomycin hydrochloride, Lederle, vitamin preparations, The British Drug Houses, Ltd., showed a new elixir Myanesin, and Anacobin, a preparation of vitamin B12 for injection. Samples of pituitary glands were shown on the stand of Paines and Byrne, Ltd. Sandoz Products. Ltd., showed a recently introduced anticonvulsant Mesontoin, calcium preparations and cardiac glycosides; and Menley and James, Ltd., Benzedrine inhaler, tablets, etc. On the stand of Evans Medical Supplies, Ltd., a rotogram apparatus showed continuously a film strip depicting scenes at the company's laboratories. Ciba Laboratories, Ltd., showed a range of antihistamine preparations, including their newly issued Antistin ointment and cream; T. J. Smith & Nephew, Ltd., a range of compression bandages including Coltapaste. Sharp Dohme, Ltd., displayed Cremomerazine, Cremosuxidine, etc.

#### Other Exhibitors

Allied Laboratories, Ltd., showed Antoin. Asmotil and Mefoton, for the treatment of influenza and the common cold; Brand & Co., Ltd., calf's foot jelly, strained vegetables, etc.; Bengué & Co., Ltd., Bengué's balsam, and a range of drops in patented dropper for optical, nasal and aural medication, and W. J. Rendell, Ltd., their latest publication. Cadbury Bros., Ltd., showed diabetic chocolate; British Felol Co., Ltd., Felsol, a preparation for asthma; A. C. Daniels & Co., Ltd., stainless steel sutures, etc.; Coates & Cooper, Ltd., Cerocol for nausea and vomiting, and a range of sex hormones, etc.; Jeyes Laboratories, Ltd., Streph, etc. Scott & Bowne, Ltd., showed Scott's emulsion, Portex plastic skin, etc. Keen, Robinson & Co., Ltd., showed Robinson's patent barley and groats, barley water, etc.; A. & R. Scott, Ltd., baby foods intended particularly for weaning and mixed feeding; the Nestlé Co., Ltd., baby milk and homogenised foods; Libby, McNeill & Libby, Ltd., homogenised foods. (Sutures), Ltd., showed Nylon sutures.

#### CORRESPONDENCE

Protest Applauded

SIR,—It was pleasing to hear and read that a protest had been made to Mr. Attlee by the Pharmaceutical Society about the collection of shillings from N.H.S. patients by chemists. Most dispensing chemists are harassed enough already with the various intricacies of the Service, without any additions to the work. If the shilling transaction and/or the bottle-deposit system is thrust on us, the increase in time-factor will slow down the dispensing service considerably and make working conditions well-nigh impossible. It is good to know that chemists can, on occasion, protest. In the past it often seemed that, as a body, we allowed ourselves to be toyed with.

Weston-super-Mare. F. E. COOPER.

SIR,-Let me congratulate the Pharmaceutical Society of Great Britain on their prompt action to oppose the " 1s. per prescription" suggestion. I agree wholeheartedly that such an objection should be lodged, only perhaps I would have been a little more outspoken. In Northern Ireland the scale of dispensing fees was arrived at by allowing a working proprietor to earn from dispensing fees £750 per annum. If the Government is going to discourage the writing of prescriptions, then it will be striking immediately at the chemists' earnings. Of all the professions none has been so shabbily treated by the present Government as pharmacy, yet none is more important to the functioning of the scheme. Let the chemists, conscious of their own importance, tell the Minister of Health their ideas and stand together in insisting on having their rights recognised.

Armagh.

J. BOYLE.

#### Chillie Paste

SIR,—May we trespass on your space in order to correct what might lead to an erroneous impression? Our attention has been drawn to a statement attributed to the defendant in a Dublin court case reported in your issue of November 5 (p. 624) that he had tried "in retail and wholesale shops" to get a jar of chillie paste containing menthol, camphor, and chloral hydrate "but had failed." In the past twenty years we have never departed from the B.P.C. formula, which contains these ingredients, with oleoresin of capsicum.

Dublin, C.7. BOILEAU & BOYD, LTD.

#### P.V.C. IN BELGIUM

A LONG-TERM agreement has been enter into by Solvay and Co., Brussels, and perial Chemical Industries, Ltd., to as the manufacture and development

polyvinyl chloride in Belgium and certain other European countries, and the approval of the Bank of England Foreign Exchange Control has been given to the agreement. A company, Solvic, S.A., has been formed in Belgium by Solvay and Co., in association with Imperial Chemical Industries, Ltd., to

M. Léon Flamache

manufacture vinyl chloride monor P.V.C., and its primary derivatives, cluding latex, pastes, and extrusion moulding compounds. The trade no Solvic is to be used to describe the c pany's P.V.C. products. Vinyl chlo monomer and polymer plants, using I. processes, have been built at Jemeppe-Sambre, and polymer made there will bably be on sale towards the end of 19 An extension of the plants, and the struction of other plants to make the range of derivatives, are planned, but u the full range of I.C.I. polyvinyl chlo polymers and primary products are n at Jemeppe, Solvic, S.A., will draw I.C.I. for supplementary supplies. agreement provides that all I.C.I. pat and knowledge in this field-past, pre and future-will be available, and assistance will also be given in techr service to customers and the developn of new uses. Each company, however, be complete with its own technical ser and research organisations. During remonths, senior officials of the new c pany have accepted invitations from I. to study all aspects of P.V.C. manufact and development in the corporation's w and laboratories in England. The dire of Solvic, S.A., is M. Léon Flamache, has been general research manager Solvay and Co. for many years.

Biological Staining.—The third edi (28 pp.) of "Biological Staining Metho has been issued by George T. Gurr, New Kings Road, London, S.W.6.

#### TRADE REPORT

ot quotations for pharmaceutical chemicals represent the prices for wholesale quantiof standard quality. Prices of crude drugs and essential oils vary as to brand or grade.

Essex Street, W.C.2, Nov. 16 MAND for PHARMACEUTICAL and FINE emicals in overseas markets continues a good scale and there has been some provement in the call from the home le. Most sections of the market remain dy, with price changes confined to a ther small increase in ZINC OXIDE. AR continues in good inquiry, particuy for Kobé white strip, of which there only small offerings. San Salvador BALSAM on the spot is slightly easier. re has, however, been a continuing vard movement in TOLU BALSAM of ch there is very little to be had in the don market. BENZOIN is inclined to a firmer market; a parcel of Sumatra ck, recently landed, which would have eved the current shortage, is apparently lterated with a chalky substance. Cas-A SAGRADA is firmer on the spot with chants marking up prices to cover her cost of replacements. COCHINEAL nains scarce and is quoted dearer.

EMI is an easy market. GINGER con-Central American types of ies firm. cacuanha are scarce on the spot but s understood that a parcel (1,000 lb.) Johore root arrived recently and is now There has been less activity Brazilian Menthol and the spot mar-is easier. East African Papain is rer on the spot. Chinese Rhubarb rens in short supply and only poor qualmaterial is now available on the spot; re are no offers from source. All stocks SANDARAC have been cleared from the ket. SHELLAC has been marked up in tet. Shellac has been no improvement in the term of the hand been no improvement in the hand been been hand been hand been hand been hand been hand been hand been been hand been hand been hand been hand been hand been hand bee plies of first grade hand-picked Alex-rian Senna pods although lower qual-pods are plentiful. Senega is quiet slightly easier on the spot. There are supplies of Strophanthus on the spot; miry is forthcoming for S. sarmentosus, hispidi and several other members of genus, to be used for experimental poses. Activity in ESSENTIAL OILS rest is still on a small scale. Chinese ISE is tending firmer. The easier tending former of the state of th v in Ceylon CITRONELLA, noted last k, has been sustained: forward quotafor Lemongrass have also been rked down slightly. Réunion oils are firm Quotations (see p. 714) for ny Synthetics and Isolates are higher ecting increased costs of raw materials. following essential oils have been reved from the Essential Oils Control ribution scheme, as from November—LINALOE (wood or seed): PEPPER-VT—M. Arvensis (dementholised) and piperita; SPEARMINT: and WINTER-EN (including Sweet Birch). These may consigned from and originating in any

country or territory other than from dollar and hard-currency areas and certain East European countries, etc. (see C, & D, October 15, p. 531). Attention is called to the fact that the above decontrolled oils, as well as those referred to in a previous circular (see C, & D, October 29, p. 611), are included in the list of oils to which open general licence does not apply. Import licences will, therefore, still be required.

#### U.S. Drug and Chemical Report New York, November 11

There have been few changes in prices in the Fine Chemicals market during the past week and activity has been on a restricted scale. As from November 1 the price of Para-aminosalicylic acid has been reduced by \$1 per Ib., bringing the cost of 1,000-lb. lots to \$9 per Ib. The Menthol market continues to ease in the absence of any appreciable demand and quotations are now from \$10.95 to \$11 per Ib. Firm conditions still prevail in Crude Drugs markets, both in domestic and imported articles, Senega is attracting considerable attention and an increase in demand is expected in the near future. There is, however, little request for Hydrastis root, The arrival of several parcels of Sumatra Benzoin resulted in a slightly easier market but these supplies were quickly taken up and the price reverted to 60 cents per Ib. The Essential offerings and greatly increased demand. Eucalyptus is in short supply as foreign shipments, particularly those from Australia, are not large enough to meet the volume of demand. The Chinese oils, such as Star anise and Cassia, Dalmatian Sage and Lemongrass are all in short supply. Cttral has been advanced from \$24.85 to \$5 per Ib. reflecting the conditions in lemongrass.

#### Pharmaceutical Chemicals

AMMONIUM CHLORIDE, B.P. — Steady. Makers quote 1-cwt, lots at 9½d, per lb.

p-Aminobenzoic acid. — Makers' prices are from 35s. to 38s. 6d. per lb. The Sodium salt is 37s. 6d. to 41s. per lb, In good inquiry.

good inquiry,

BISMUTH SALTS.—Home-trade prices are as follows:—CARBONATE.—I-cwt. lots, 16s. (2S-lb. containers): 16s. 1½d. (7-lb.): 16s. 4d. (1-lb.): smaller quantities are scheduled up to 19s. 5½d. per lb., according to pack. CITRATE is 2s. 11d. per lb., SALICYLATE 2s. 3d. per lb. and SUBNITRATE 2s. 4d. per lb. less than carbonate, and SUBGALLATE is threepence per lb. more.

Barbitone.—Rates per lb. are as follows:—1 cwt., 35s.; 28 lb., 36s.; 7 lb., 37s.; 1 lb., 38s. The Sodium salt is now 1s. per lb. more than the base.

Betanaphthol. — Makers quote prices from 2s. 9½d. to 3s. 1½d. for B.P. quality packed in 28-lb. packages.

∝-Bromisovalerylurea. — Quotations are 41s. to 47s. 6d. per lb. In good request.

BUTYL CHORAL HYDRATE.—Merchants are asking from 17s, 6d, to 20s, per lb., as to quantity.

CALAMINE.—1-cwt. lots are now quoted at 1s. 9d. per lb.

Calciferol.—1 kilo is quoted at 7s. 6d. per gm.; 500 gm., 7s. 7d. per gm.; 100 gm., 7s. 8d.; less than 100 gm., 7s. 9d. Supplied in 25 gm. ampoules.

CHLORAL HYDRATE. — Current rates per lb. for the home trade are: 1-cwt. lots, 4s.; 56-lb., 4s. 2d.; 28-lb., 4s. 4d.

CHLOROXYLENOL.—B.P. quality is quoted at 5s. 6d. per lb. in 1-cwt. drums.

CINCHOPHEN.—Weak market. Prices are from 25s, to 30s, per lb., as to quantity.

COCAINE.—Rates per oz. are: Alkaloid, Citrate and Salicylate, bottles, ½-oz., 65s. 6d.; ½-oz., 62s.; 1-oz. 60s. 6d.; 2-oz., 59s.; 4-oz., 58s.; 8-oz., 57s. 3d.; 16-oz., 54s. 4d. Tins 25-oz., 53s. per oz. Hydrochloride, Nitrate and Sulphate. bottles, 2-oz., 58s. 3d.; ½-oz., 55s. 3d.; 1-oz., 53s.; 2-oz., 52s. 6d.; ½-oz., 55s. 3d.; 1-oz., 53s.; 2-oz., 52s. 6d.; 4-oz., 51s.; 8-oz., 50s. 6d.; 16-oz., 47s. 3d. Tins, 25-oz., 46s. per oz. Packages free, net monthly account, carriage paid.

CYCLOBARBITONE. — Makers' prices for small quantities are from 79s. 5d. to 83s. 11d. per lb. The Calcium derivative is available at the same prices as the base.

EPHEDRINE.—Makers' rates per oz. are as follows:—Alkaloid: 1 oz.. 11s, 9d.; 16 oz.. 11s. 6d.; 25 oz.. 11s. 3d.; 50 oz., 11s.; 100 oz., 10s. 9d. Hydrochloride and Sulphate: 1 oz., 8s. 3d.; 16 oz., 8s.; 25 oz., 7s. 9d.; 50 oz., 7s. 6d.: 100 oz., 7s. 3d. Assorted contracts may be booked for quantities of not less than 100 oz. over six months. Containers: 50 oz. or more, free; 50-oz. lots carriage paid.

Guaiacols.—Liquid is offered at prices from 14s, 6d, to 16s, 6d, per lb., and Crystal and Carbonate, 14s, to 15s., according to quantity.

Hexamine. — B.P. is offered at from 1s. 8d. to 2s. per lb., as to quantity. A steady market.

HEXYLRESORCINOL. — B.P.C. material is quoted at from 175s, to 200s, per lb.

Homatropine.—Makers' prices per oz., are as follows (prices per gm. in brackets): Alkaloto.—1 oz. 97s. 6d.; 4 oz., 92s. 6d.; 16 oz., 87s. 6d. (4s.). Hydrochloride, Hydrobromide and Sulphate.—1 oz., 75s.; 4 oz., 70s.; 16 oz., 65s. (3s. 2d.).

ORTHOCAINE.—Quotations are from 1: to 125s. per lb., as to quantity.

Pyrogallic acid.—Quotations per for Crystals are as follows: 1 cwt., 18 56-lb., 18s. 6d.; 28-lb., 19s. 6d., Smaller quantities are from 21s, to 9 per lb., less 2½ per cent. Resubliment 20s. 3d. per lb., for 1-cwt. lots; 56 20s. 9d.; 28-lb., 21s. 9d.; 14-lb., 23s. net. Smalls are from 24s. 9d. to 26s. per lb., less 2½ per cent.

SILVER SALTS. — A steady mar NITRATE in 1,000-oz. lots is quoted 3s. 5 %d. per oz. PROTEIN, B.P. (8 cent.), in 14-lb. tins, is 36s. 3d. per VITELLIN, B.P.C., 20 per cent., is 60s. lb. (14-lb); 30 per cent., 88s. per lb.

Sodium salicylate, — Unchan Makers' price for 1 cwt. is 2s. 7d. per resellers' rates per lb. (containers brackets) in the home market as follows:

Solid (2-lb.): 3s. 2½d. (4-lb.): 3s. 3d. (2-lb.): 3s. 1d. (14-lb.); 3s. (28-lb.). one month.

STRYCHNINE.—Makers' current rates oz. are as follows:—

Compound	Under 25 oz.	25 oz. and under 100 oz.	100 o and ur 500 o				
Alkaloid Bisulphate Hydrochloride Hypophosphite Nitrate	s. d. 6 2 5 4 5 11 9 8 5 11	s. d. 6 o 5 2 5 9 9 6 5 9	s. 5 1 5 5 9				
Sulphate (neutral pow- der No. 2) Sulphate (neutral crys-	4 11	4 9	4				
tal and pow- der)	5 6	5 4	5				

Sulphacetamide. — Quotations are region of 26s, to 30s, per lb, The Sor derivative is priced at 32s, 6d, to 36s, per lb.

SULPHANILAMIDE. — Steady. Prices as follows: 5 cwt., 6s, 3d.; 1 cwt., 6s, 28 lb., 6s. 10d.; 14 lb., 7s.; 7 lb., 7s. per lb., net; packing extra.

Tartaric acid B.P. — British mal current scales are:—10 cwt. and c 170s.: 5-9 cwt., 172s.: 2-4 cwt., 174s cwt., 176s, per cwt., delivered.

THYMOL.—Small quantities are now ted at from 19s. 6d. to 20s. 3d. per lb

Vanillin.—Current rates are: 5 c 22s. per lb.; 1 cwt., 22s. 3d.; 56 22s. 6d.; smaller quantities. 22s. 9d. lb. Supplies from maker are on quot

ZINO OXIDE.—A further advance in ccs of all grades of 35s, per ton, f November 10. B.P. is quoted £95 5s. ton in 2-ton lots.

#### Crude Drugs

ACONITE.—Steady. Indian, on the spot, ted at 260s. to 265s. per cwt.; napel-3s. 11d. to 4s. 3d., duty paid.

AGAR.—Good Kobé No. 1 on the spot is ted at from 15s. 3d. to 16s. per lb.; pnes of poorish colour are offered at n 13s. to 14s. per lb., spot.

FALSAMS.—Canada on the spot is offered from 1/s. 6d. to 20s. per lb.; afloat, 6d., landed terms. Pará Copaiva, 1932, soluble, now 7s. 6d. per lb., t. San Salvador Peru is 6s. 3d. to 6d. per lb., duty paid. Very\_little Tolu

t. San Salvador *Peru* is 6s. 3d. to 6d. per lb., duty paid. Very little *Tolu* the spot; quotations are 17s. 6d. per; prompt shipment, 15s. 6d., c.i.f., ted.

BELLADONNA. — Steady. Jugo-Slav root 46 per cent.), 4s. 3d. per lb., duty paid; lian root, quoted at from 3s. 6d. to 9d. per lb., duty paid. Jugo-Slav herb offering at 6s. 6d., duty paid. English ves, quoted at 4s. 6d. per lb.

BENZOIN.—Quotations for good almondy narra block on the spot are from 10s. to £19 10s. per cwt. Siam almonds red at from 20s. to 21s. per lb., spot.

JAMPHOR. — Steady. Chinese tablets oz.) are offered at from 7s. to 7s. 6d. lb., duty paid; refined natural powder P.) is quoted at 5s. 6d. per lb., duty d, spot London, and B.B. grade may had at 5s., duty paid. English subed flowers (B.P.) are 5s. 9d., and English synthetic, 5s. per lb., in 1-cwt. lots.

ASCARA SAGRADA. — Few offers; 1949 l is quoted at 270s. per cwt., duty paid. lochineal.—Firm. Silver greys scarce the spot and 5s. 9d. per lb. is asked. lrgor. — Quotations for Portuguese ge from 21s. 6d. to 24s. per lb., spot. lentian.—French natural on the spot

uoted at from 69s. per cwt.

INGER.—Firm. African is quoted at s. per cwt., spot. Jamaican, No. 3, s., nominal, spot.

FUM ACACIA. — Kordofan cleaned sorts red on the spot at from 87s. 6d. to per cwt.; shipment, 82s., c.i.f.; thed gum, 125s., spot. Talha is 50s. cwt., on spot; shipment, 45s., c.i.f.

PECACUANHA. — Nicaraguan for prompt pment from origin is quoted at 38s. per c.i.f.; Colombian, 32s. 6d., c.i.f.

RISH MOSS.—Good white carrageen is offer at 85s. per cwt., spot.

Varaya.—No. 1 gum on spot is quoted at is. to 280s; No. 2, 215s, per cwt., spot; 3, 180s., spot. A firmer market.

JQUORICE.—Anatolian natural root, for ment, quoted at 55s. per cwt., c.i.f.; ian natural, quoted 40s., spot; cut. 55s. cwt. Turkish block is quoted at from s. to 230s., duty paid, according to der; Turkish stick is from 300s., duty d. Italian stick is from 300s. to 475s. cwt., duty paid, as to grade.

MALT EXTRACT.—In good demand. B.P. quality is quoted at 86s, per cwt. in 1-cwt. or 56-lb, returnable drums; with Cobliver oil (15 per cent. v/v.) the price is 99s, 6d, per cwt.; carriage paid. Supplies are plentiful.

MENTHOL.—Brazil is from 85s. to 87s. 6d. per lb., spot, duty paid; November-December shipment, 87s. 6d., c.i.f., Chinese, prompt shipment, from origin, 85s., c.i.f.,

NUTMEGS. — West Indian 80's quoted 2s. 9d., on spot; shipment, 2s. 2½d. per lb., c.if.; sound assorted, 2s. 1d., spot. East Indian 80's offered at 3s. per lb., c.if. Continent.

QLIBANUM. — Best drop is quoted at 195s.; peas are 190s., fair garblings, 125s. and siftings at 85s. per cwt., spot.

PAPAIN.—East African, on the spot, is from 14s. to 14s. 9d. per lb.; Ceylon brown, 10s. per lb., spot.

RHUBARB. — No offers of good-quality Chinese rough round. Poor quality root, with a brown fracture is offered at 7s. 6d.

per lb., duty paid, spot.

SEEDS.—Anise.—Market continues firm with very small stocks available. Turkish is 175s. per cwt., duty paid, spot London. Caraway. — Dutch is unchanged at 112s. 6d. per cwt., duty paid, spot London. Celery.—Market remains firm. Indian quoted at 1s. 5d. per lb., spot London. French is offered at 1s. 9\frac{1}{2}d. per lb., duty paid. London. (November 2d.) paid London (November delivery). Coripaid London (November delivery). Corresponding to the control of t 67s. 6d. per cwt., duty paid, ex store Hull. CUMIN.—Market quieter. Cyprus is quoted for shipment at prices ranging from 165s. to 175s. per cwt., c.i.f. On the spot, sellers are asking 180s. per cwt. Indian is in very poor demand and prices as low as 145s. per cwt. are quoted. Morocco is 165s, per ewt., duty paid, spot London. FENNEL .-Market unchanged. Indian is 70s. per cwt., spot London. FENUGREEK.-Market firm. Indian for shipment is 60s. per cwt., c.i.f., and on spot sellers are asking 62s. 6d. per cwt. Morocco is offered at 57s. 6d. per cwt. duty naid. spot London. DILL. cwt. Morocco is offered at 57s. 6d. per cwt., duty paid, spot London. DILL.—Indian remains firm at 62s. 6d. per cwt., spot London.

SENNA.—Prices are as follows: Tinnevelly leaves, spot, No. 1, from 9½d. to 11d. per lb.: No. 2, 7½d. to 8d.; No. 3, 6d. per lb.; Tinnevelly pods, hand-picked, 9d.; manufacturing, 5d. to 6d. Alexandrian pods, hand-picked, spot, from 4s. 9d. to 5s. 9d. per lb., nominal; medium grades are offered at from 2s. 6d. to 3s. per lb.; manufacturing 8d.

Senega.—Quiet. Spot quotations are from 10s. 9d. to 11s. per lb.; to come forward, 10s. 6d. per lb., landed terms.

Waxes.—Dar-es-Salaam Bee's is steady at 370s. per cwt., spot; shipment, 365s., c.i.f. Lindi is 365s., spot; shipment, 360s., c.i.f. Enguela on spot is 335s. per cwt., in bond; shipment, 335s., c.i.f. Candellilla.—Spot supplies remain short and prices remain at 435s. per cwt.; December delivery, 430s., ex warehouse. Cannauba.—Prime yellow, 890s. per cwt., spot; shipment, 900s., c.i.f. Fatty grey is steady at 670s. per cwt., spot; for shipment, 665s., c.i.f. Montan.—Reibeck is quoted at 180s. per cwt., spot; forward, 155s., c.i.f. Ouricuri.—Steady. 99.5 per cent, pure is offered at 675s. per cwt., spot; and 3.9 per cent, impurities is 660s. spot. Spermacett.—Steady. Quoted at 2s. 5d. per lb., spot.

#### **Essential and Expressed Oils**

ALMOND. — English-expressed sweet oil (B.P.) is offered at from 4s. 6d. to 5s. 6d. per lb.; Spanish is available at from 3s. 6d. to 4s. 6d. Bitter, on the spot, is from 30s. to 60s. per lb., as to grade.

ANISE.—Firmer, Chinese star is quoted at from 8s, 2d, to 8s, 3d, per lb, for drums and 8s, 6d, in tins in cases, spot; afloat, 8s., c.i.f., quoted.

Calamus.—Offers of English-distilled are from 100s, to 150s, per lb. Dutch is quoted at from 65s, to 69s, per lb., landed, duty paid.

CAMPHOR.—White oil on spot is quoted at from 2s. 2d. per lb., duty paid: brown oil. from 1s. 7d. per lb., spot, duty paid.

Cananga, — Spot quotations are from 26s. 6d. to 28s. 6d. per lb.

Caraway.—English-distilled is offered at from 36s. to 40s.; imported, 26s. to 28s. per lb., as to quantity.

CARDAMOMS.—English-distilled is offered at 450s, per lb.

Cassia.—Quotations are around 18s. to 18s. 6d. per lb., spot. Little available; a parcel afloat is offering at 16s., c.i.f.

CITRONELLA.—Spot quotations are from 9s. 3d. to 10s, per lb. for Ceylon; November-December shipment, 7s. 9d. to 8s., c.i.f. Java is 15s. to 16s. per lb., spot; forward, 13s. 9d., c.i.f.

Clove. — English-distilled bud oil is from 12s. 9d. to 13s. 6d. per lb., according to quantity; imported oil is 7s. per lb.

DILL.—English-distilled oil is quoted at from 65s. per lb, for B.P. quality. Indian is offered at 18s. 6d. per lb., spot. Dutch is quoted at from 51s. to 54s., landed, duty paid.

Geranium,—A firm market. Bourbon, for shipment, 75s. to 80s. per lb., c.i.f., nominal; spot quotations are from 80s.

JUNIPER BERRY.—Imported oils are quoted at from 19s, to 25s, per lb., duty paid; English-distilled, first quality, is offered at from about 75s, per lb.; B.P.C. oil is 27s,

LAVENDER.—French, 38-40 per cent a spot is offered at from 19s. to 22s. per : 40-42 per cent., 20s. to 23s. English tilled oil is quoted at 185s. per lb. Spanspike is quoted at 9s. to 9s. 6d, per lb.

Lemongrass.—Spot supplies are no ally at from 16s, per lb.; November-De ber shipment, offered at 14s. 6d., c.i.f.

Pennyroyal.—Spanish oil (B.P.) or spot is at from 17s. 6d. to 18s. per l

Petitgrain.—Paraguayan on the is quoted at from 17s. 6d. to 18s. 6d. lb.; forward, 15s. 6d., c.i.f.

Sandalwood, — Mysore oil on the from 67s, 6d, to 70s, per lb.; English stilled is about 75s, per lb. West India squoted at 25s, per lb.

Sassafras.—Brazil on spot is quote it from 5s. to 5s. 6d. per lb.

THYME. — Red oil (40-42 per c), phenols), 10s. 6d. to 12s. 6d. per lb.; v oil, 17s. to 18s. 6d. per lb., spot.

TI-TREE. — Quotations are from 6s to 8s. per lb., according to quantity.

Valerian.—English-distilled oil is ted at 75s, per oz.

#### Synthetics and Isolates

QUOTATIONS are per lb. and vary according grade, quantity and seller.

ACETOPHENONE.—6s. to 10s. AMYL ACETA 2s. 6d. AMYL BENZONTE.—5s. 3d. to 6s. ABUTYRATE.—5s. 3d. to 6s. 6d. AMYL PHENY TATE.—9s. 6d. to 12s. AMYL SALICYLATE.—15 to 4s. 6d. AMYL CINNAMIC ALDEHYDE.—15 17s. 6d. ANETHOLE.—12s. 6d. to 21s. 6d. A ALCOHOL.—65s. to 67s. 6d. ANISIC ALDEHY EX paracresol, 19s. to 22s. 6d.; perfumery 2 25s. to 35s.

Benzaldehyde.—3s. 6d. to 4s. 6d. Benze None.—10s. 6d. to 12s. 6d. Benzel Alcoh Perfumers', 3s. to 4s. Benzyl Acetate.—3 4s. Benzyl benzoate.—Perfumers', 4s. 9d. zyl cinnamate.—From 12s. 6d. Benzyl benzoate in 6s. 6d. Benzyl benzel benzoate in 6s. 6d. Benzyl salicylate.—6s. 6c. 7s. 6d. Benzyl succinate.—10s. 6d. to 14s. zylidene acetone.—15s. to 17s. Borneol.—9 11s. Bornyl acetate.—5s. to 7s. Bromstyr 32s. 6d. to 34s. Butyric acid.—5s. to 6s.

CINNAMIC ALCOHOL.—16s. 6d. to 18s. 6d. C MIC ALDEHYDE.—6s. 6d. to 7s. 6d. CINNAMYL TATE.—22s. 6d. to 25s. CINNAMYL BUTYRA 27s. 6d. to 30s. CITRAL.—24s. to 52s. 6d. C NELLAL.—27s. 6d. to 30s. CITRONELLOL.—Ex lon, 28s. to 42s. 6d.; ex Java, 30s. to 52s. 6 MARIN, 17s. to 19s.

DIETHYL PHTHALATE.—2s, to 2s. 6d. DIME BENZYL CARBINOL.—50s. DIMETHYL HYDROQUIP—37s. 6d. to 40s. DIPHENYL MENTHANE.—6s. to 7s. DIPHENYL OXIDE.—5s. 6d. to 6s.

ETHYL BENZOATE.—4s. 9d. to 6s. ETHYL B RATE.—5s. 3d. to 7s. ETHYL CINNAMATE.—12s. to 13s. ETHYL ŒNANTHATE.—18s. 6d. to ETHYL SALICYLATE.—3s. 9d. to 5s. ETHYL V. LIN.—55s. EUGENOL.—14s., to 18s.

#### MISCELLANEOUS INQUIRIES

auristillæ Penicillini. — J. W. — The nula for auristillæ penicillini was reved from the National [War] Formulary, 7, as being pharmaceutically unsatisfact. Should auristillæ penicillini be presed it would be advisable to community with the doctor concerned to ascertain exact requirements.

Arsenic Rat Bait.—M.McD.—The best hod of using arsenic as a bait for rats a the form of finely ground white Cananarsenic. It is recommended to be by the Ministry of Agriculture and neries (of Great Britain) as a 10 per t, mixture with bread mash. For mice same grade of arsenic is used in the portion of 15 per cent, in sugar meal.

Hair Restorer.—P. P. L.—A sulphur I lead hair restorer may be made to the owing formula:—

 Lead acetate
  $1\frac{1}{2}$  dr. or 1 dr.

 Milk of sulphur
 1 dr. or  $1\frac{1}{2}$  dr.

 Glycerin
 2 fl. dr. or 1 fl. dr.

 'erfume
 2 fl. dr.

Vater to ....... 10 fl. oz.

t the powders intimately and rub up
h the glycerin, gradually add the water,
l lastly the perfume.

Liquid Shampoos.—J. A. D.—Liquid mpoos containing sulphated fatty alcos, or sulphated oils, may be made to the owing formulas:—

I.	
Sulphated fatty alcohol	40
Water	60
Golour	q.s.
Pau de Cologne	q.s.
her perfumes may be used, and	if de-
d a proportion of the water m	ay be
laced by spirit.	

11.	
Sulphated olive oil	20
pulphated castor oil	20
redual hydrocarbon oil	8
Water	80
Coming D 112 CH C I C	

Curing Rabbit Skins.—C. I. C.—The owing is one method of curing rabbit is:—Take the skin fresh and immerse in a strong solution of alum and salt. ascertain when dressed enough, double skin twice, flesh side outwards, and is it firmly between the finger and imb until the liquor is well pressed out. When opened, the crease on the skin ks white in the angle, it is dressed ough. Take the skin out, immerse it for

a minute in warm flour and water, and then wash out the flour under a stream of water. When the skin is about half dry, lay it on a flat, smooth piece of board, and scrape off the flesh.

Mildew Stains. — W. O'S. — Mildew stains are difficult to remove because usually the fibres of the material have been attacked by the fungus. Fresh stains can often be removed by washing with soap and water. Older stains may be bleached with solution of hydrogen peroxide, sodium perborate, or chlorinated soda. Ammoniated solution of hydrogen peroxide is often effective in these cases. A useful application consists of the following:—

Ammonium carbonate 45 gr., sodium chloride 75 gr., distilled water 3 oz. The stains are moistened with the solution, the material thoroughly washed with water and allowed to dry in the sun.

**Destroying Bugs.**—7. 7. H.—The usual and most effective method of destroying bugs in rooms is by fumigation. Undoubtedly the most certain, although not usually practicable method, is with hydrocyanic acid, the method used by local authorities in Britain. The method is attended with too much risk for private individuals to carry out. The alternative is fumigation with sulphur, 3 lb. of sulphur mixed with 8 oz. of potassium nitrate being sufficient for 1,000 cu. ft. of space. Complete destruction of bugs has also been secured by formaldehyde fumigation, using 40 oz. of solution of formaldehyde poured on to 2 lb. of a mixture of one part quicklime and one part chlorinated lime.

Surgical Liquid Soap.—J. M.—Surgical liquid soap may be prepared to the following formula:—

Cottonseed oil	200	gm.	
Coconut oil	100	gm.	
Alcohol (95 per cent.)	200	c.c.	
Water	450	c.c.	
Sodium hydroxide	45	gm.	
Potassium carbonate	10	gm.	
Ether		c.c.	
Liquefied phenol		C.C.	

Add a mixture of 100 c.c. of water and 200 c.c. of alcohol to the mixed oils and mix thoroughly. Dissolve the sodium hydroxide and the potassium carbonate in 325 c.c. of water; add this solution to the oil mixture, and warm until completely saponified. After it has cooled, add the ether and phenol.

#### FIFTY YEARS AGO Pharmaceutical Unrest

(From the C. & D., November 18, 19) FROM St. Petersburg in the East to Louis in the West, pharmacy is in a of ferment, and never in the history o art has discontent been so openly simultaneously expressed as it is now. is surely not without significance, and may get some practical lessons from sideration of what is happening elsew Beginning at St. Petersburg, as the ex sion of Russian pharmacy, we find chemists' assistants there, after a peric agitation in regard to their condition employment, have succeeded in ge some amelioration, for in a few pha cies the number of assistants has been creased so as to provide greater leisure all . . . This, in bureaucratic Russia, great advance. In Sweden . . . there i agitation . . . for greater freedom of ti so that qualified pharmacists may be to start in business at an earlier age The condition of pharmacy in Austr. at present exceedingly acute owing to agitation of assistants for better pay, s ter hours and more liberty. The fact the agitation is tinged with Socialism not make it less serious . . . In Germa nearly similar condition of things pre . . . Italy wants pharmaceutical refe and Spanish pharmacists urgently den amelioration of their conditions.

# Introducing . . .

# "MESONTOIN"

A marked advance in the treatment of

# **EPILEPSY**

# GRAND MAL, JACKSONIAN AND PSYCHOMOTOR ATTACKS

Mesontoin offers considerable advantages over other hydantoins; the incidence of side effects is low, the dosage may be maintained at a high level, and more effective control is obtained in resistant cases

## SANDOZ PRODUCTS LIMITED

134 Wigmore Street, London W.1

and antiseptic is a colourless viscous liquid with a faint pleasant odour, for use in medical treatment and for pharmaceutical preparations. Phenoxetol is especially effective against certain gram-negative organisms, including Ps. pyocyanea. It is used by local application—by wet dressing, instillation or irrigation—in the treatment of infected wounds, abscesses, indolent ulcers, associated with Ps. pyocyanea. It should not be used for parenteral injection.

Phenoxetol is very effective in pyocyanea infections of burns or superficial wounds. It is especially useful for skin grafting, in dermatitis associated with Ps. pyocyanea, and for the sterilization of tuberculosis cavities infected with Ps. pyocyanea.

In addition to its anti-pyocyanea activity, Phenoxetol is an excellent preservative for penicillin creams and other pharmaceutical and medicinal preparations. Not only does it protect the creams from deterioration caused by various organisms such as mould and fungi, but it also prevents the inactivation of penicillin itself by inhibiting the growth of B. coli and other penicillinase producing organisms.

The following formula is successfully applied for Penicillin Cream:—

Lanette wax SX \_ \_ \_ \_ 3.5 g.
Liquid Paraffin \_ \_ \_ 15 ml.
Penicillin Solution \_ \_ 5 ml.
Phenoxetol \_ \_ \_ 2 ml.
Aqua redest \_ \_ \_ also

Para-Chloro-Phenoxetol, the antifungous compound specifically active in ointments, powders and solutions against infections by Trichophyton-Epidermophyton - Microsporum and Monilia organisms.

# We are TOTALITARIANS

ABOUT CORKS

ET'S admit it. So far as corks are concerned, we're out-and-out dictators. Regimentation, standardization—these are our watchwords. We plead guilty to our

We plead guilty to our reputation for reducing corks to a state of unbelievable uniformity.

We do it by sheer ruthlessness. Corks hate us! Boiled alive, pressed flat, shut in the dreaded "hot-box," they are then sliced and punched, tapered, sanded, notch-

"Want to be different, eh?"

ed, bleached and branded—no atrocity is spared to stamp out individuality.

Not a cork can escape; many are completely eliminated. Sometimes only 5 per cent. of a whole batch survive to become corks of our Grade A quality. If a cork is even 1/63rd of an inch too small, it is pitilessly rejected and ground into by-products.

IF YOU, too, feel totalitarian about corks, and want them, in each grade, as uniform in size and quality as skill and experience can make them—please get in touch with us by letter or telephone. Armstrong Cork Company, Ltd. (Closure Division), Kingsbury, London, N.W.9. Telephone: Colindale 7080. Scottish Branch: 5 Oswald Street, Glasgow, C.I. Telephone: Central 5703.

FREE ON REQUEST. The handy Armstrong String of Standard Cork Sizes shows at once what size you want—whether for dispensing or for ordering supplies. May we send you one?

# When your customers ask about Amm-i-dent

More and more customers are asking what makes Amm-i-dent so different from all other dentifrices.

Tell them in simple language that it is the first dentifrice to do more than just clean the teeth. It actually destroys the microbes of decay.

As you know, its unique formula combines 5% dibasic ammonium phosphate and 22.5% carbamide, which achieves this result by releasing the ammonium ion in the mouth and so simultaneously raising the pH of the saliva, helping to dissolve dental plaques and greatly inhibiting the growth of lactobacillus acidophillus.

No other dentifrice on the market contains this formula
